Louisiana Contested Elections.

Another of the Louisiana election cases was before the House to-day, and goes over for the second time without being finished. The case is similar in general terms to that of Sypher. After the close of the debate Mr. Newsham was voted in by half a dozen majority. Mr. Eldridge changed, and then moved a reconsideration, which was carried by two majority on a standing vote. Before the yeas and nays could be taken, the House got to filibustering, and finally adjourned without reaching a decision.

The Darien Treaty.

Private letters from Bogota speak of the Darien ship canal treaty. It is said that the debate on it in the Colombian Congress has been very sharp and bitter. It is being considered article by article, and the first one has been adopted. The prospects for ratification are not favorable, and in the sections most interested there is considerable excitement.

Ex-Minister Hale.

The friends of John P. Hale have word that he is to sail from Europe for for New York in the steamer of the first of June. He is by no means in good health, and appears to be somewhat broken down by the events of the past two years.

The Tobacco Tax.

Representatives Moers, Winchester, Peck, Nill, Trimble, Booker, Cleveland and Senator Johnson, all having constituents largely interested in tobacco, held a meeting last night to decide upon the rate of tax they could advocate. It was finally agreed to try and unite those most interested in this article in supporting the single rate of sixteen cents upon all sorts.

The Navy.

Master Thos. G. Grove, of Mound City, Ill., passed his second examination in the navy to-day, and attained the grade of Lieutenant.

The Foreign Mail Service

Is in better working order under the treaties concluded by the present administration than at any previous period. Except that the relations with France are broken off, everything is going on in a satisfactory manner. The change of the English mails from Australia via San Francisco, has placed us on a better footing in regard to carrying our own closed mails for the continent through England. There are indications which point to the necessity of compelling the French to come to terms with us. At home, the affairs of Creswell's department are in a most promising condition. The revenue thus far has been lighter than was expected. The House Appropriation Committee has given him all he asked for, and, in fact, increased the sum for the letter carrier system a quarter of a million, in order to make it more efficient.

Hostility to National Banks.

The Banking and Currency Committee have under consideration various memorials from National Bank men in Pennsylvania, concerning legislation in that State hostile to these banks. It appears that the Legislature has incorporated a number of loan and deposit companies, with authority to pay higher rates of interest than is allowed by the National Bank law. The State tax law also discriminates against banks. The committee hear a similar class of complaints from other sections. While they are disposed to remedy the matter, if possible, they find the subject a very difficult one to deal with, and do not feel at all confident that they can meet the case presented by legislation.

Business to be Hurried Up.

The order carried through by Mr. Dawes, that the House shall meet hereafter at eleven and sit six hours each day, will serve to push business along rapidly. The Senate has also adopted an order going into operation to-morrow, under which an evening session is to be held every other day for work on the calendar in accordance with the Anthony rule. The effect of this is that the day sessions are to be devoted to important measures, while all private and minor bills will be acted on in the evening. The prospects are good for two months of active business.

The Bond and Banking Bill.

The new bond and banking bill has been about perfected by Mr. Garfield's Committee, and will appear in about the same form as originally reported. Mr. Lynch will probably get through with his bill on Tuesday. Mr. Washburn will then have the floor with the postal telegraph bill, so that Garfield can hardly get his measure considered before next week. He thinks it can be carried through with some non-essential amendments, but many careful observers believe it will be defeated—if not in the House, then in the Senate.

The Howard Investigation.

The testimony of Maj. S. N. Clarke, of Chicago, before the Howard investigation, closed yesterday. He had made a settlement of the Barry farm fund within a few months. He found it three thousand dollars short. General Howard gave his individual note to settle it. Subsequently this paper had been withdrawn and General Bullock had given a receipt as Treasurer of the University, to cover this. A transaction involving some $2,000 with the Congregational Church, also came to light. The books of the University are not clear upon the first matters. General Howard, however, claims that he can furnish complete explanations.

WASHINGTON, D. C., May 21, 1870.

CANCELLATION OF BEER STAMPS.

The Commissioner of Internal Revenue has received a number of letters from persons doing business as brewers, inquiring whether the law requires them to cancel their stamps by using either Wheeler's patent or any other than those prescribed by the Department. The Commissioner responds that so far as beer stamps are concerned there need be no other method of cancellation used than hitherto practiced.

GENERAL HANCOCK.

The reason why General Hancock was not appointed to command the Department of the Pacific, will appear from correspondence soon to be published, which shows that party politics had nothing to do with the matter.

WASHINGTON, D. C., May 22, 1870.

THE PRESIDENT AND GEN. HANCOCK.

It appears from a published correspondence that Gen. Hancock, on the 15th of April, telegraphed Gen. Sherman that if his rank would not entitle him to a division, and a change in departments make it practicable, he prefers the St. Louis station. Gen. Sherman replied that the President had fairly considered Hancock's claims to the command of the Pacific, and his preference for the Department of the Missouri, and says that the relations Hancock chose to assume towards him, officially and privately, absolve him from regarding Hancock's personal preferences, and that the changes to be made will not touch the Department of Dakota or the Military Division of Missouri. Hancock, on April 27th writes: As the President leads me to believe that because I have not his personal sympathy, my preferences for a command will not be regarded, notwithstanding my rank, I shall not again open the subject, but will add that I think it an unfortunate precedent to establish that military rank in time of peace shall not have the consideration hitherto conceded to it. The following words, recently attributed to General Sherman, do not appear in his letter: "I am requested by the President to inform you that there is nothing in your personal relations to Gen. Grant, or in your official relations to his administration, that could qualify your promotion now, or lead you to expect it hereafter. The reference in Sherman's letter to the relations which Hancock chose to assume towards the President officially and privately, and absolving the President from regarding Hancock's personal preferences, is thus explained: At the time the reconstruction acts were put in operation, Hancock was transferred from the Department of Missouri to the District of Louisiana, and Gen. Grant, as General-in-chief modified or revoked one of Hancock's orders, to which the latter took strong personal exceptions. Shortly after, by order of the President, Gen. Hancock was assigned to the command of the Division of the Atlantic, and came to Washington. He went to Gen. Grant's headquarters, but instead of calling upon him personally, he simply registered his name, which was unusual and considered discourteous. Gen. Grant having no knowledge or apprehension that Hancock was offended, meeting him on the street shortly afterward, accosted him in a friendly way, with "Good morning, Hancock." To this Hancock made no verbal response, but merely touched his hat and passed. Sometime subsequently at a wedding party, Gen. Hancock turned his back on him. Gen. Grant was also informed that Gen. Hancock had boasted of his discourtesy to him on the street. When Gen. Hancock issued the order for the removal of certain persons in New Orleans, a correspondence took place between the two Generals, when Hancock used language which was considered disrespectful and insubordinate to a superior officer. Hancock is now a Major General and in command of a department. When General Thomas died, there were left four Major Generals. General Halleck, who had been on the Pacific coast and had served out his term of duty, and Gen. Meade, who was offered the command and preferred remaining in Philadelphia, the choice lay between Generals Hancock and Schofield. The matter was submitted to the President, who simply directed that General Schofield be sent to the Pacific, leaving Hancock where he was, in command of one of the most important military departments of the country.

LETTER FROM GOVERNOR BULLOCK.

Governor Bullock, of Georgia, has addressed a letter to Republican Senators and Representatives to the effect that the charges made against him are the result of the machinations of Joshua Hill, whom he denounces as a secessionist. The Governor claims having acted honorably and fairly throughout the controversy, and concludes by expressing his opposition to Bingham's amendment, or any proviso substantially like it, because, he says, it seeks to deny the Republican party in Georgia the fruits of the political victory they have achieved after the terrible trials of the past two years of contest; because it seeks to restrain the full effect of literal execution of the reconstruction acts in such a manner as to promote the interests and wishes of every man and every party who have persistently and by every means and manner sought to defeat these acts; because its adoption will be a rebuke, and will destroy the republican party, which has maintained those acts and supported the administration and party in our State, and because any attempt to hold an election there for members of the General Assembly before those already elected have enjoyed their Constitutional term of two years, as a State in the Union under the new Constitution, will result in an utter abandonment by them and the party of any further attempt to uphold and maintain the policy which a Republican Congress has inaugurated, and which it would thus be shown a Republican Congress has abandoned. I will not deny that this result would bring peace to Georgia, but it would be the peace of death to Republican principles, which would be abandoned forever, and the 100,000 loyal men who voted for and carried the Convention and Constitution bound to be heard from no more. There is no amnesty with rebels for men in Georgia who have dared to be Republicans and sustain the measures which enfranchised the black men. There is no relief from disability except in death, in submission or flight.

THE CASE OF COMMANDER UPHUR.

The decision of the court martial in the case of Commander Uphur, has been referred to the Solicitor of the Navy Department.

CHANGED ITS NAME.

The Havana *Prensa* has been merged into the *Voce De Cuba*.

ADVICES FROM HAYTI

Represent the country in a peaceful condition. The opposition to the established Government has practically ended. The troops have dispersed or captured the last band of Pequits, many of whom have been executed.

GEN. SAUSE,

Governor of Porto Rico, has been recalled to Spain.

THE WEST INDIA TELEGRAPH.

The construction of the land line of the West India telegraph in the island is going on. Sir Charles Bright visited St. Thomas on the 16th, to make arrangements for landing the telegraph cable.

THE RED RIVER COUNTRY.

A letter to a prominent party, dated St. Paul, May 13th, says: The writer had just returned from the Red River country, and that if it had not been for recent legislation with regard to the country, Riell's government would have availed itself of the kind sympathy and aid tendered by our countrymen. The law passed by the Canadian Parliament gives substantially what Riel asked for. The adjustment, however, does not promise to be permanent. Only American institutions and enterprise can open up the resources of the Red River country. The writer further says: While at Winnepeg, he heard of no sentiment of annexation to the United States, but commercial relations and railroads will effect a change in that respect.

MEMORIAL PRAYING FOR REDRESS.

John Warren sent a memorial to the Senate praying for redress for his arrest and imprisonment by the government of Great Britain, under charge of giving aid and comfort to the enemies thereof.

REMOVAL OF POLITICAL DISABILITIES.

Applications for the removal of political disabilities continue in large numbers.

CONGRESS.

HOUSE OF REPRESENTATIVES.

Mr. MORGAN presented five additional petitions asking Congress to abolish national banks; to pay off the bonds deposited by them as security; to issue $350,000,000 in treasury greenback notes; to pay off all the $380,000,000 of bonded debt; to make greenbacks receivable for all dues and other taxes collected by the Federal Government, and restore prosperity to the country.

Mr. CULLOM offered a resolution of inquiry as to the fees charged and collected by the Clerk of the Supreme Court of the United States. Adopted.

Mr. COX asked leave to offer a resolution, requesting the Judiciary Committee to report back the eight hour law for the laborers and workmen in the government employ.

Mr. McGREW objected.

Mr. BETS reported from the Committee on Foreign Affairs as follows: The Senate joint resolution to authorize the payment of the full salary of A. P. Hovey, as Minister to Peru, without deduction on account of absence from post. Passed. Adversely on bill to increase the salary of Minister to China. Tabled. Authorizing the Secretary of State to cause the remains of General Asboth, late Minister to the Argentine Confederation, and General Steadman, late Consul to Santiago de Cuba, to be removed to the United States, the former to be interred in the National Cemetery at Arlington. Passed. To ascertain and allow damages to the owner of the steamer Monitor, fired into by the Damio, off Nagoto, in July, 1864.

On motion of Mr. DAWES, it was ordered, on and after Monday next, that the House meet at eleven o'clock and adjourn at three o'clock.

The House then resumed the consideration of the Louisiana contested election case of Newsham against Ryan.

After discussion of the minority report favoring Ryan, it was rejected without a division, and the majority report giving the seat to Newsham adopted, 78 to 72; all Democrats voting in the negative. Among the Republicans voting "no" were Ambler, Asper, Beaman, Beatty, Bingham, Blair, Buffington, Burchard, Cook, Davis, Dawes, Farnsworth, Ketchum, Orth, Peters, Strong, Washburn, of Massachusetts, and Willard.

Mr. ELDRIDGE moved a reconsideration, for the purpose of offering a resolution declaring the seat vacant.

Mr. COX said he would prefer vacancy to usurpation.

There being signs of filibustering, amid much excitement an adjournment was carried.

Adjourned.

NEW YORK.

NEW YORK, May 21, 1870.

DETENTION.

The steamer Nellie White ran on the rock at Hell Gate to-day, and kept two hundred passengers aboard over four hours, because the Captain wouldn't receive the assistance of a boat of the opposition line.

DESERTED FROM WEST POINT.

Thirty soldiers of the Sapper Corps deserted in a body from West Point, after receiving their month's pay. Fifty dollars reward is offered for each for their recapture.

SUSPENDED.

Eugene Finch, a stock broker of New York, has suspended payment.

Consul Phillips, who was driven from Santiago, Cuba, has arrived here.

HIGHWAY ROBBERY.

Several cases of highway robbery occurred in Brooklyn to-day.

THE STRONG MINDED.

At a meeting of the Women's Rights Club of Brooklyn, it was decided to wear short or long dresses, as best suited themselves. Miss Hutchinson, in the course of a long debate on dress, stated that women could not dress tastefully without spending liberally of their husbands' or fathers' money.

HAVE BROUGHT SUITS.

Mr. and Mrs. Gardner, of this city, have commenced suits of $20,000 each against Mrs. Burke, daughter of the late Captain Alexander. Mr. Graff, a relative of the Gardners, has been arrested on suits of Mrs. Burke for converting a portion of the bonds found on the person of the late Captain.

THE AFRICAN METHODIST CONFERENCE.

At Newark, to-day refused to entertain a petition for the restoration to the ministry of Jno Seaman, who was expelled last year for adultery, although he has since obtained a divorce from his wife. The Conference then tried and found guilty of drunkenness and suspended for one year the Rev. Wm. H. Livingston.

TOURNAMENT.

A tournament at Prospect Park Fair Ground commenced to-day. Col. Lamb, of Missouri, was herald. The first prize was won by Eddie Galagher, Knight of Shannondale; second, by P. H. Herford, Knight of Herford; third, by A. Brockenborough, Knight of Westmoreland; fourth, by Horace Bailey, Knight of Virginia. The next tournament will take place on Tuesday, when the Queen of Beauty will be selected and crowned.

THE TURF.

The race at the Fashion Course to-day for one thousand dollars, mile heats, was won by J. J. Bradley; time 2:31½, 2:29, 2:31½, 2:31, 2:32, beating Surprise, Idol and Western New York.

A meeting was had to-night at the Baptist Tabernacle in behalf of the American Colonization Society. Rev. Dr. Samson, of Columbia College, Washington, D. C., made the chief address:

"Fifty years ago, the ship Elizabeth sailed from this port for Liberia with eighty-five emigrants, and since then the Society has colonized, including the recapture of Africans, 19,000 persons. There are at present on the coast of Africa, accepting the Christian faith, half a million souls. The receipts of the society during its existence, amount to two millions and a half dollars. The average cost of colonizing, including all expenses, was $125 a head."

EUROPE.

BY THE ATLANTIC CABLE.

Spirit of the London Press—Parliament—Confidence in Saldanha—Abolition of Capital Punishment—Resignation of Danish Ministry—Health of the Czar—Speech of Emperor Napoleon on the Result of the Vote on the Plebiscite—Espartero to be King of Spain—Portugal Affairs—Ecumenical Council—The Reichstag—Derby Day—Boat Race—Pamphlet on the Infallibility Dogma—Debate on the Question of Infallibility to Close in June, &c.

Spirit of the London Press.

LONDON, May 21.—The *Standard* newspaper, while claiming, in an editorial, that Englishmen possess and enjoy a special faculty which enables them to bear defeat with good humor and in a manly spirit, endeavors at the same time by the publication of the meanest falsehoods to detract from and deteriorate the victory obtained by the American yacht Sappho over the Cambria in the late contest. It is a fact that the Sappho was sailed by Americans solely and alone. She beat the Cambria in the first and third races four times the time allowance, the latter could have claimed by the Thames measurement. The Sappho would have done the same thing in the second race if the owner of the Cambria had not been afraid to venture across the channel in a gale of wind.

This poor, mean spirit still prevails in many quarters with respect to the issue of the international contest between Englishmen and Americans. Its existence foreshadows that a like expression of unfairness will be made on this side relative to the progress and issue of the coming international contests between the Dauntless and the Cambria, across the Atlantic, for the championship of ocean yacht racing.

LONDON, May 21.—The *Times* comments favorably on McHenry's plan for the reorganization of the Atlantic and Great Western Railroad under the the Presidency of General McClellan.

The London *Observer* regards the closing by the United States Government of the Sault Ste. Marie Canal to the Red River expedition as an act of studied unfriendliness.

Parliament.

LONDON, May 21, 3 P. M.—In the House of Commons last night Mr. Gladstone, in replying to Sir Roundell Palmer, admitted the argument of the latter—that a friendly state or nation is bound to protect the lives and property of all foreigners traveling through its territory, and should give special protection to members of legations or representatives of foreign countries. In reference to the recent murder of Englishmen by the Greek brigands, he said the government demanded of Greece full investigation and punishment of the Bandits as soon as the facts were known. The government has in mind some conception to remedy this state of affairs in Greece, but would not suggest it now.

Union of Spain and Portugal.

It is rumored that Saldanha acted in conjunction with powerful persons at Madrid, influenced by a determination to unite the governments of Spain and Portugal under one head.

Sailed.

The British channel squadron has sailed from Corunna. Its destination is said to be this port.

Confidence in Saldanha.

MADRID, May 21, 2 P. M.—The Minister of State announced in the Cortes that official information had been received from the King of Portugal, expressing his entire confidence in the new War Minister, Saldanha.

Abolition of Capital Punishment.

THE HAGUE, May 21—2 P. M.—The Lower Chamber of the States General or Dutch Parliament have passed a bill abolishing capital punishment.

Resignation of the Danish Ministry.

COPENHAGEN, May 21.—The King of Denmark has accepted the resignation of the Danish Ministry, and a new Cabinet will soon be announced.

The Czar in a Precarious State of Health.

PARIS, May 21—2 P. M.—A memorial diplomatique in correspondence from Ems, says the Czar of Russia is now there. He is in a precarious state of health.

The Emperor's Speech.

PARIS, May 21.—The following is the Emperor's speech in reply to the address of the legislative bodies on the presentation of the result of the vote on the plebiscitum:

SIRS:—On receiving from your hands the result of this vote my first impulse is to express my gratitude to the nation, which thus renews to me, for the fourth time in twenty years, the signal evidence of its confidence. Universal suffrage, the elements of which change unceasingly, nevertheless accomplishes its purpose always. It has for guides its traditions, the certainty of its instincts, the fidelity of its sympathies. The plebiscitum had for its sole object the ratification by the people of constitutional reform; but amidst a conflict of opinions and in the struggle with its opponents its purpose become greater. Let us not regret this. The adversaries of free institutions have made the question one between the Empire and a revolution. The nation has settled the question in favor of that system which guarantees order and liberty.

To-day the Empire is strong; but it will show its strength by its moderation. My government will execute the laws without partiality or weakness. It will not deviate from the line marked out for it. Respecting all the rights of its subjects, it will protect them all and all their interests, without thought of dissenting votes or hostile maneuvers. But it will also cause the national will to be respected, and will hold it above all controversy. Freed from the constitutional questions which have kept them apart, its best spirits will now have but one purpose, to rally around the constitution which the country has sanctioned.

Honest persons of all parties will now unite in efforts to soften the asperities of partisan passion, to preserve social interests from the contamination of false doctrine and to augment by all lawful means the grandeur and prosperity of France. We shall labor to diffuse instruction, to simplify administrative measures, to introduce into the code ameliorations in favor of the agricultural interests, and to develop national works. We shall give our time to the reduction and best distribution of taxation. Such is our programme, which, if realized, will increase the progress of civilization.

I thank you gentlemen, for the aid you have given me on this occasion. The votes which ratify those of 1848, 1851 and 1852, reaffirm your power, and give you, like me, new force to work for the nation, now more than ever. May we be fearless of the future, for who can oppose the progressive march of the *regime* which a great people founded amid political troubles and which is thus fortified in an era of peace and liberty.

Paris to be Illuminated.

The city will be illuminated this evening in honor of the favorable result of the plebiscite vote.

Iberian Union.

MADRID, May 21.—The British fleet left Corunna for Lisbon. The successful military rising at Lisbon has created a profound sensation here, and is accepted as presaging an Iberian union.

Espartero to be King of Spain.

The reported acceptance of the Spanish crown by Espartero is confirmed.

Affairs in Portugal.

LISBON, May 21.—General Soldanha, the new Prime Minister, has addressed a note to several political celebrities, inviting them to places in the Cabinet. The sessions of the Cortes were closed by his orders. The principal towns have sent to the General their acceptance of the new order of things. The country is entirely tranquil. Up to this time, 7 P. M., the Ministry are not wholly formed. Soldanha will certainly be President of Council and Minister of War, and Count Perniche Minister of the Public Works and the Interior.

Evening.—Now that the Cortes has been prorogued it is generally thought it will be dissolved and a new election ordered.

Bill Abolishing Death Penalty Rejected.

MUNICH, May 21.—The Chamber, by a vote of 76 to 67, has rejected the bill abolishing the death penalty.

Ecumenical Council.

ROME, May 21.—The new list of members of the Ecumenical Council places the number at 975. Many, however, have gone home, leaving proxies in favor of the infallibility dogma.

Debate on infallibility in the Council continues. Of the fathers who have given notice of their intention to speak, sixty are yet to be heard. The close of the discussion is fixed for the 29th of June, the date of the next general congregation.

A Pamphlet Denouncing Infallibility.

A pamphlet appeared at Rome denouncing acquiescence in the dogma of personal infallibility of the Pope as a mortal sin. It is supposed to have been written by the Bishops of St. Brieux, and produces an extraordinary sensation.

Paris Illuminated.

PARIS, May 22.—The public buildings, churches, cafes and some private houses were illuminated yesterday evening in honor of the declaration of the plebiscitum. The principal streets were thronged with people, but no disorder occurred.

Publishers Condemned to Fine and Imprisonment.

The publishers of the *Siecle*, *Reveil*, *Rappel* and *Avener National* were condemned to imprisonment for one month, with a fine of one thousand francs, for the publication of a spurious proclamation over the signature of Napoleon.

Troops Sent to Watch the Neapolitan Insurgents.

French troops have been sent to the Neapolitan frontier to watch the insurgents.

The Reichstag.

BERLIN, May 21.—In the Reichstag the Government accepted the proposition looking to the abolition of capital punishment, except in cases of malice aforethought and assassination of the sovereigns of the confederation.

Derby Day.

LONDON, May 21.—The prospects for Derby Day begin to brighten. The betting indicates that there will be a larger field than was expected, and the race will be more contested.

Boat Race.

A boat race occurred on the Tyne to-day, between Winship and Hipple White. The latter was the favorite, but Winship won easily.

The Markets.

LONDON, 6 P. M., May 21.—Consols for money 94¼; account 94⅜@94½. American securities dull; '62s, 88¼; 65s, 88¾; 67s, 90¼; 10-40s, 86. Erie 18¾; Illinois 111½; Great Western 28¼. Stocks dull.

FRANKFORT, May 21.—Bonds quiet at 93⅞.

PARIS, May 22.—Bourse quiet; rentes 74 francs 85 centimes.

The Book Committee of the Methodist Episcopal Church are again considering the charges against the Junior Book Agent, who will probably be suspended during the trial.

Venezuelan advices of May 9th report the success of the rebels, under Guesnim Blanco. On the 27th of last month, after three days hard fighting, the insurgents succeeded in occupying the Capital; houses and stores were sacked and robberies were carried on to a fearful extent by the soldiers of the victorious party. For a long time Blanco has been plotting to secure the overthrow of the established government, and he has apparently succeeded in his efforts.

Mr. Bassett, colored, Minister of the United States at the Court of Saget, of Hayti, waited on him on the 11th inst., to inform him officially of the ratification of the Fifteenth Amendment to the Constitution of the United States. Saget replied with eulogistic remarks on the President and Congress of the United States, and said the people of Hayti would feel much closer allied to the United States on account of the amendment.

PRESBYTERIANISM.

The Presbyterian General Assembly.

The Meeting at Philadelphia—Reconstruction of Boundaries—The Reformed Presbyterian Church at Cincinnati—The General Assembly at Louisville—The Cumberland Presbyterians at Warrensburg, Mo.

PHILADELPHIA, May 21.—This morning's session of the Presbyterian General Assembly was occupied with the consideration of the report of the joint committee on Reconstruction. The report fixes the boundaries of the various Synods by States and counties, and recommends that the Assembly reconstruct the boundaries of the Presbyteries according to the following principles: That each Presbytery be defined by geographical boundaries; that the Presbyteries be enlarged, and the formation of small ones be discouraged, none hereafter to be formed to consist of less than five ministers; that in the present distribution, or in the future formation by Synods, no Presbytery shall consist of less than ten, except as missionary districts; that each large city shall constitute one Presbytery; that churches in different geographical locations having one minister shall belong to the Presbytery of the minister as long as he continues pastor; that ministers without charges shall belong to the Presbytery within the limits of which they ordinarily reside; that the present Synods and Presbyteries on reorganization shall be considered as continuing their succession in that Synod or Presbytery which now includes the largest portion of the body as existing to-day.

A change in the representation to Synods and the Assembly is not recommended at present. The report was placed upon the docket and made the special order for Monday morning. The afternoon session was omitted to-day.

CINCINNATI, May 21.—The General Synod of the Reformed Presbyterian Church adjourned at noon until Monday morning. But little important business was transacted. During the forenoon the trustees of the Theological Seminary at New Brunswisk submitted a report which was highly commended by the Synod. The Committee on the Signs of the Times reported a long list of indications that called for mourning of the people. Among them are questions touching the Council at Rome, the Bible, the Sabbath, doctrines of the Church, marriage relation, and venality and corruption and extravagance in the government and among the people. The committee recommend the first Thursday in January as a day of fasting. They recognize, too, on the other hand, that the tendency of things is to break up the crust of mere human authority of Christians and lead men generally to a better understanding and a better union in the cause of Christian liberty and the worldly interest of mankind. The report of the committee was accepted. The subject of union with the United Presbyterian Church is the special order for Monday afternoon.

LOUISVILLE, KY., May 21.—The Presbyterian General Assembly held only a morning session. The first order of the day was the consideration of the scheme for a great Presbyterian University. Rev. Dr. Lyon, of Mississippi, made a long and able speech in favor of it, after which the whole subject was referred to a committee, of which Rev. Dr. Palmer, of New Orleans, is Chairman, to digest the subject and present it in a tangible form for the consideration of the body. Reports of the executive Committees of Foreign Missions and Education were read and referred to the standing committee on the same subject. Hearing of the delegates from corresponding bodies was made the order of the day for Monday morning. A number of minor reports were presented and referred to committees.

Adjourned until Monday morning.

GENERAL ASSEMBLY OF THE CUMBERLAND PRESBYTERIANS.

Special Correspondence of Pittsburgh Commercial.

WARRENSBURG, MO., May 19th, 1870.

The General Assembly of the Cumberland Presbyterian Church convened in this place to-day at 11 o'clock. The roll showed one hundred and sixty-six commissioners present, embracing representatives from the Presbyteries in California and Oregon in greater numbers than ever heretofore. An unusually large number of visitors are present, including a fair proportion of what a *dyspeptic* correspondent of an eastern journal facetiously called recently "the ornamental branch of the General Assembly." The opening sermon was delivered by Rev. T. A. Anderson, D. D., of Lebanon, Ohio, from Malachi, 2:7. The discourse had been prepared with much care, and discussed in a terse, practical and exhaustive manner the relations of the Christian ministry to God, the church and the world, and its responsibilities and duties. Prayer, by Rev. Robert Frazer, of Alabama. On motion, the Assembly took a recess until 3 o'clock P. M.

On reassembling at the appointed hour, an organization was effected by the election of J. C. Provine, of the Presbytery of Nashville, Moderator; Rev. J. C. Van Patten, of the Presbytery of Sangamon, Clerk, and Rev. J. H. Morton, of the Presbytery of Logan, Assistant Clerk.

The hours fixed for daily sessions, were from 8:30 A. M. to 12 M. After a few ineffectual efforts to take up items of business, for which all were too weary by reason of the fatigues of travel, the Assembly adjourned until Friday morning. J. H. B.

PHILADELPHIA, May 22.—The sentiment of the General Assembly of the Presbyterian Church, in reference to organic union with the Southern Presbyterian Church, seems unanimous. It was particularly noticeable in the eloquent passages of Dr. McCosh's discourse on Sunday in the Assembly Church. Delegates will be sent to the General Assembly sitting in Louisville to convey salutations of the Assembly here, and to present resolutions that were unanimously adopted.

LOUISVILLE, May 22.—The pulpits of the different churches of the city were filled by ministers attending the meeting of the Presbyterian Assembly. Immense congregations gathered at the First and Second Presbyterian Churches this morning and to-night to hear Rev. Dr. Palmer, of New Orleans, and Rev. Dr. Dabney, of Vicksburg.

THE WEST.

Laborers on the Kansas Pacific Railroad ask for Protection Against Hostile Indians—Indian Outbreak on Red River Imminent—Indians En Route for Washington—The Fenians—Riel wants O'Neil to Hurry Up—Suicide—No Receiver.

CHICAGO, May 21.—A dispatch was received at military headquarters in this city to-day from James Archer officer of the Kansas Pacific Railroad, who was at Georgetown, Colorado, stating that a large party of railroad laborers, now at Kit Carson, refuse to work on the road another day unless they are furnished with arms for their defense against the Indians, and that they are threatening to seize a train and come east. General Sheridan is therefore asked to send six hundred stand of arms to those men immediately, the Kansas Pacific Railroad Company becoming responsible to the government therefor. In the absence of Lieutenant General Sheridan the matter will be referred to General Pope.

There arrived here to-day, from Winnepeg, an agent of Riel, named Perreau, who, it is believed, has come to consult with General O'Neill on his arrival. This man has seen the Chicago Fenians, but as they are opposed to any Red River expedition, which they deem foolhardy and dangerous, he has met with but little encouragement. It is supposed that O'Neill is bent upon making an attempt to intercept the British troops while on their way to Red River, and that Perreau has come on behalf of Riel to get O'Neill to hurry up. Perreau states that the mission of Bishop Tasche to Red River was an entire failure, and that Riel never said he would not accept assistance from Fenians. It is stated here quite freely, by doubting Fenians, that Colonel M. O. Smith and Lieutenant Colonel B. F. Walsh, of California, are to meet O'Neill on the border somewhere, bringing with them, as the quota of California, one thousand equipped men. O'Neill is to be here next week.

Carrie Phillips, a servant girl in the family of Mr. Best, No. 56 Twenty-eighth street, was found dead in her bed this morning, the result of a dose of laudanum, which she took to end her sorrows. She was seventeen years old, and of English birth.

CHEYENNE, WYOMING TERRITORY, May 21.—Chief Justice Howe, yesterday, denied application for a receiver in the case of Davis and associates vs. the Union Pacific Railroad, holding that the showing before him did not justify or show any absolute necessity for such a remedy; that the road was now being managed by able, honest men, is in a prosperous condition, and if this were not so, the bond tendered by the railroad company is ample security for the complainant in any event.

ST. LOUIS, May 21.—Dispatches received at headquarters to-day, say Gen. Forsyth is in close pursuit of the Indians that recently attacked the working parties on the Kansas Pacific Railroad, with good prospects of overtaking and severely punishing them.

CHEYENNE, May 22.—Red Cloud, John Richards and about twenty-five Sioux left Fort Fetterman this morning for Washington. It is expected they will reach Cheyenne on the 27th instant.

THE WEST INDIES.

The Revolution in St. Domingo Gains Strength—Ratification of Annexation Treaty Loudly Called for—The Pacific and Panama Telegraph Cable—Caracas Captured by Gen. Blanco—President Monagas Surrenders and is Released on Parole.

ST. DOMINGO, May 9th, *via* HAVANA, May 22.—Reports from the interior announce that Cabral gains adherents and the revolution increases. The people, believing annexation to the United States a hoax, the ratification of the treaty is loudly called for as the only means of restoring tranquility.

KINGSTON, May 10, *via* HAVANA, May 22.—The ship Milicite arrived on the 29th ult. with a section of the Pacific and Panama telegraph cable, and on the 3d inst. the United Steamer Yantic brought Sir Charles Bright, director of the enterprise. The steamers Suffolk, Dacia, Lilian and Beuldi, with the remainder of the cable, are daily expected. Several English telegraph operators came by the Melicite. It is anticipated the cables will be laid by the end of June. Hayti has applied to be brought into telegraphic communication.

CARACAS, May 9, *via* HAVANA, May 22.—This capital was captured on the 27th ult. by General Blanco, after two days hard fighting. The city was greatly damaged by artillery and five hundred men were slain. The new Government, with Blanco as President, is established and meets with no resistance. President Moragas appeared before Laguayra with four hundred men, but fearing the revolution was successful, voluntarily surrendered and was released on parole.

CITY MATTERS.

SUICIDE AT ALTOONA.

Another Horror.

A horrible suicide occurred at Altoona early Saturday morning, a Mr. Karnes who was had blacksmith at the Pennsylvania Railroad shops, cutting his throat. The instrument used to execute the awful deed was a razor and a terrible wound was inflicted, the head being almost severed from the body. Domestic troubles are said to have been the cause of the rash act.

ANOTHER DROWNING CASE.

A Boy Drowned in the Monongahela River.

Last evening about seven o'clock a boy named Edward Zinc, fifteen years of age, was riding in a skiff in the Monongahela river, at the foot of Market street, when he fell into the river and was drowned. All efforts to recover the body had, up to a late hour last evening, been unsuccessful. The parents of the unfortunate boy reside in Allegheny City.

SAD ACCIDENT.

Two Men Drowned in Beaver County.

Our correspondent W. H. S., writing from Rock Point, Beaver county, informs us that two men, named Eli George and John Rogers were drowned yesterday morning. They were engaged in towing a flat load of coal from the Clinton Coal Company's chutes on Rock Point Dam. The boat was too heavily laden, and sunk in the dam, carrying the unfortunate men down with it. George leaves a wife and one child, and Rogers a wife and two children, to mourn their untimely end. The body had not been recovered at last accounts.

THE ARREST OF RAFFERTY.

He is Released on $8,000 Bail.

Officer John Irwin arrived in the city from Louisville on Saturday morning, bringing with him Wm. C. Rafferty, against whom there are two indictments for keeping a gambling house. Rafferty was to have been tried at the last term of Court, but when his name was called he failed to appear.

In the Quarter Sessions Court Saturday afternoon, John Mellon, Esq., made an application for the release of defendant on bail. Court after consultation fixed the bail at $4,000 in each case, making a total of $8,000. Rafferty procured the required bail and was released.

AQUATIC.

The Denmarsh-Moore Race Postponed Until This Evening—Other Races Talked of—Coulter's New Scull Boat, Etc.

On Saturday afternoon a single scull race was to have taken place between Nicholas Denmarsh, of the McKee Club, and Harry Moore, of the Chambers. As this was the first race of the season there was considerable excitement on the South Side, and a large crowd gathered on the river banks, and beer saloons in the vicinity did a flourishing business. The water was so rough that Mr. John Hamill, the referee, with the consent of all parties, postponed the race until this evening between six and seven o'clock.

The match between Adam Trautman, of the Chambers club, and Cooney Minehart, of the McKee, will take place on Saturday next, the purse being $200.

The meeting between Henry Best and Wm. Sharp on Friday evening did not result in a race, owing to there being a difficulty about the course.

The best oarsmen generally prefer the upper course, and it is probable that most of the races this season will be rowed there. Whatever of opposition this course has does not seem to come generally from expert oarsmen. A large share of steamboats that are liable to interfere below, do not go above the dam, and this is one very strong argument for the upper course. Besides, there is less current, and a fine opportunity for viewing a race.

A race is talked of between Patrick Luther and Wm. Sharp. Luther made excellent time in the victory he won over Kaye last season.

An elegant cedar scull made by R. Jewett was shipped from London on the 23d of April, to Henry Coulter. A letter from Coulter, dated Annapolis, the 17th, states that his crew are brown as berries and at work earnestly.

DR. JACKSON'S ENTERPRISE.

He Converts a Telegraph Pole into a Barber Shop Sign.

Dr. Jackson, of Duquesne Grays and Washington and Lafayette fame, has recently executed an act of remarkable enterprise, in converting the fire alarm telegraph pole at the corner of Third avenue and Market street, into a barber shop sign.

A few days ago the Doctor might have been seen at about one o'clock in the morning with a painting apparatus, busily engaged putting a white coat on the lower part of the telegraph pole. He laid about with artistic skill, and performed his work rapidly and well. Just as he was about to put on the inevitable red stripe the policeman on duty in that part of the city, made his appearance, and said:

"Doctor, what the deuce are you doing, whitewashing the telegraph pole in this style?"

The Doctor said: "Why you see, boss, business am dull and I wants dese ere folks on Market to see dat dere's a barber shop up dar." And the Doctor displayed his teeth in a lively grin.

The policeman said: "This thing won't do. It's against the city laws. Just take this paint bucket of yours and move on."

The Doctor took the paint bucket and left, but the policeman had hardly turned the corner before he was at work again, this time with red paint for the fancy stripes. He took a string and wound it around the pole and followed the course of the string with the red paint, and when the policeman came around again he found a complete barber sign, but the Doctor was *non est*.

The next day the Doctor appeared on the street at an early hour, and in response to inquiring looks from various parties, said, "Who painted dat dar pole?"

One singular thing about this sign is the fact that it is located about half a square fom the shop. The Doctor's explanation of the thing is: "You see, boss, gem'men see this telegraph pole, and den dey look up street, and my barber shop strikes dere eye." The Doctor is keeping a sharp lookout for the policemen, who, it is stated, have the matter under consideration.

GERMAN IN OUR PUBLIC SCHOOLS.

Meeting of German Citizens Saturday Evening.

The Central Committee, whose task it is to promote the cause of the introduction of the German language in our public schools, held a meeting on Saturday evening, in Turners' Hall, Mr. C. F. Bauer presiding, G. C. Hess acting as Secretary.

Mr. C. F. Bauer reported that the committee had adopted the following scheme: To circulate petitions to the School Boards of the Sixth, Eleventh, Fourteenth, Fifteenth, Sixteenth, and Seventeenth wards, signed by citizens and taxpayers in generl. A formula of said petition was then laid before the meeting, and approved by a unanimous vote. It reads thus:

To the School Board of the —th Ward of Pittsburgh:

GENTLEMEN—The subscribers, citizens and tax-payers of this ward, would hereby respectfully ask your Board to take the proper steps for the introduction of the German in the public schools of the —th ward. This amelioration of our system of public education has for years been in successful operation in other large cities of the Union, for instance, in Cincinnati, St. Louis, Cicago, and even in New York. We believe that this measure would be beneficial in many points. It would tend,

1. To thoroughly Americanize and unite the different elements of our population, by bringing the foreign and native born children together and removing the cause for separate schools.
2. To enlarge the ideas and the intellectual scope in general of the future citizens of this great republic.
3. To endow them besides with a business capital in the knowledge of a language which is the nation's tongue of a very considerable and constantly increasing part of our industrious population.

About four hundred dollars a year would suffice to effect the desired reform in this ward.

Dr. Joseph Abel was then unanimously elected Treasurer of the committee.

The following named gentlemen are authorized to solicit signatures to said petitions:

Sixth Ward—Th. Grede, C. F. Schwarz, J. G. Backofen, Enst L. Morrow.
Eleventh Ward—C. Meyran, Jos. Abel, J. F. Hauck, Mr. Geise.
Fourteenth Ward—Gust. Thurn, Christ. Miller, G. Schleiser, Mr. Mayeth, R. C. Schmertz.
Fifteenth ward—M. Neckerman, Lorenzo, Aug. Sperber.
Sixteenth ward—Benj. Schmidt, G. Praetsch, Mr. Nessenthaler, J. Gangwisch.
Seventeenth ward—G. Torgel, E. Morganroth, Geo. Fuchs.

Resolved, That said petitions be circulated within two weeks.

Resolved, That we hold the next meeting on the sixth day of June next.

Resolved, That the organization of this evening be declared permanent, and no dissolution take place until the desired end is reached.

Resolved, That the officers elected this evening shall continue in office permanently.

Resolved, That the minutes of this evening's meeting shall be published in the principal newspapers of this city.

ROWDYISM.

An Unusual Amount of Drunkenness in the City Yesterday—An Outrage in the Twelfth Ward—The Lock Up Crammed Last Evening, etc., etc.

There was an unusual amount of drunkenness in the city yesterday and Saturday, and at eight o'clock there were some fifteen cases in the watch house, while the lock-ups of the outer wards were pretty well filled.

AN OUTRAGE.

Between three and four o'clock yesterday afternoon several rowdies assembled at a doggery or saloon near Ætna street, and soon became noisy from taking too much beer. They went out and commenced making demonstrations at the door of a Mrs. Blue, who resides on Ætna street, when the lady interfered and told them to leave, and when they insisted on staying she tried the effect of a broom upon them. One of the party, named John Farrell, struck her with a poker and she ran up her stairway. The three rowdies followed, broke open the door and assaulted her with the poker and a shovel. The police were soon on hand and succeeded in arresting one of the party. The other two ran. Lieut. Emmett, with one of his officers, gave chase and followed the fugitives over to Allegheny across the upper bridge. Farrell was captured by the Allegheny police and kept until the officers arrived.

A FIGHT.

On Saturday night about twelve o'clock, a disgraceful fight occurred in a house of ill repute on Caldwell street, near Logan. Some rowdies visited the house and smashed the furniture and indulged in the amusement of beating the inmates. The screams of the females soon attracted a large crowd, and the police were called. By the time the officers arrived the row had quieted down and the doors of the house were locked, so that the police were unable to obtain admittance, and so no arrests were made.

COMMON CASES.

There were eight common cases before Deputy Mayor Nichols yesterday, which is an unusual number for the Seventeenth ward.

ANOTHER FIGHT ON THE PERRYSVILLE ROAD.

Yesterday morning another of those Sunday fights that seem to disgrace the Perrysville road this year, occurred about three miles from the city.

A German farmer was quietly driving to church with his family in a heavy country vehicle, when one of the fast young rowdies of the city came along and undertook the experiment of driving over the German's establishment. The experiment resulted in a failure. The light carriage was badly smashed, and the owner demanded that the German should pay damages. This proposition was declined, but the proprietor of the heavy consented to go back and "talk about it," and he did so, sending his family on to church. A fight soon commenced, and the German was enforced by a friend, the young man was reinforced by two more, and finally four others came to the aid of the farmer, and the young man from the city was badly whipped. The party at one time got over a fence into a field and had a sort of pitched battle.

THE SOLDIERS' MONUMENT.

The Corner-Stone Ceremonies—Further Arrangements—General Meade to Inspect the Military, &c.

This day week the ceremonies connected with the laying of the corner-stone of the Soldiers' Monument, in Allegheny park, will take place, and the arrangements are almost completed for the demonstration. It is now definitely stated that Gen. George G. Meade will be present on the occasion, and review the military.

THE PROGRAMME.

The Executive Committee appointed to make arrangements for laying of the corner-stone met Saturday afternoon at Gen. Pearson's office, on Grant street, Lee S. Smith in the chair, and J. W. Pittock, Setretary.

On motion all secret societies, and other societies that intended participating in the procession, were instructed to report to the Chief Marshal at once for assignment.

The Committee on Programme reported the following programme of ceremonies for the laying of the corner-stone on Seminary Hill:

1. Salute by U. S. Battery under command of Captain Ramsey.
2. Music (national airs) by brass band.
3. Prayer by Rev. C. W. Smith.
4. Oration by Thomas M. Marshall, Esq.
5. Vocal music by pupils of Prof. Slack.
6. Poem by J. N. Boyle.
7. Laying of the corner-stone by the Ladies' Monumental Association.
8. Vocal music by Prof. Slack's pupils.
9. Benediction by Rev. Dr. Page.
10. Music by brass band.

Several sub-committees reported progress.

On motion, it was ordered that all poems, from which one is to be selected to be read on the day, should be in not later than next Wednesday.

On motion, the citizens of the various wards, boroughs and townships of the county was requested to make immediate preparation to join in the procession, turning out either on foot or in wagons or other vehicles, and make such display as they see fit.

The committee adjourned to meet next Wednesday.

THE SOUTH SIDE LADIES.

The ladies of the south side boroughs will meet at Shaffer's Hall, Bingham street, Birmingham, this afternoon at four o'clock, to made arrangements to prepare the flowers for Post 151, G. A. R. All ladies are earnestly requested to attend.

THE RECEPTION OF GEN. MEADE.

The Western Division of the Pennsylvania Reserve Association met at the office of Swaaringen & McCandless, on Fourth avenue, Saturday night, to make arrangements to give Gen. Meade a fitting reception on the occasion of his visit to this city to participate in the Monumental ceremonies. It was resolved to appoint a Committee to meet the General at Greensburg, escort him to this city, and then place him under the care of the Committee of Arrangements for the day.

COURT PROCEEDINGS.

Court of Common Pleas—Full Bench.

The usual routine business was transacted in this court on Saturday.

In the matter of James Pierson, a lunatic, it was ordered that he be committed to the Western Pennsylvania Hospital for the Insane until further order of the court.

In order to have the difference of opinion between the County and City Treasurers settled, Major Denniston, County Treasurer, through his counsel, presented the following:

"Your petitioner begs that a mandamus be issued to the said James Ritchie, Mercantile Appraiser, commanding him to make return to your petitioner, as Treasurer of Allegheny county, a certified list of all the wholesale dealers and retailers of merchandise in the county, or that a rule may be granted to show cause why a mandamus should not be issued for the purpose aforesaid.

J. F. DENNISTON, County Treasurer.

Court awarded an alternative mandamus and made it returnable Friday next, D. Reed, W. W. Thompson and T. J. Bigham appear for Mr. Denniston, and Marshall and Mr. McKee, for the respondents.

A preliminary injunction was granted upon the application of the School Directors of Bellevue borough, restraining John J. Snodgrass from teaching the school. Mr. Snodgrass was employed as teacher in Bellevue school, but was subsequently dismissed because of alleged cruelty and refusing to receive an official communication from the Board. He declined to relinquish his position, however, and continued to teach the pupils in attendance.

An opinion was given by the Court, on Saturday, "that the defendant be and is hereby enjoined from teaching in the school house of said school district, or from seeking to enter said school house under the pretense of teaching therein until further order of Court, bond to be filed by the plaintiff in the sum of $500, with surety to be approved by Court."

The Daily Commercial.

MONDAY, MAY 23, 1870.

JUAREZ, President of Mexico, is, we suppose, rather a popular man in the United States. Were he to visit us, processions and other demonstrations would be got up in his honor, and by such displays, we should feel that we were not only paying due respect to the chief of a sister Republic, but rewarding the sympathy with which the great man favored the North during the late war. Admiration, if not gratitude for the energy and decision with which he upheld the MONROE doctrine in the taking off of MAXIMILIAN, would also be an element in the enthusiasm with which some would receive him. It is to be feared, however, that JUAREZ's reputation is in danger just now. All readers must have heard of the extensive contraband trade carried on on our Mexican frontier. During the war, a vast organization existed for this illicit commerce between Mexico and the Confederate States, and it is reported that the committee appointed to investigate the subject, have found evidence which criminates JUAREZ as the head of the Mexican branch of the business. By this arrangement the Confederate government received arms and munitions of war in exchange for cotton. In due time, all the facts will be made known, and, in the meantime, we may think JUAREZ as honest as we can.

KNOWING people in England have long been aware that an abuse, or anything generally objectionable was never so likely to be removed as just after a nobleman or a bishop had become a victim of the wrong. The sympathy there felt for aristocratic distresses is wonderful. Several journals have called attention to the remarkable illustration of this "English trait" afforded by the Marathon massacre of a few weeks ago. Brigandage has existed for ages in Greece and in Italy—and in both countries English travellers, of all foreigners, have suffered most from its inconveniences and dangers. Some have been put to death by brigands, and large ransoms have been often exacted, and we do not know that either retribution or re-emboursement has ever been formally demanded by the English government from the rulers of the country in which the rights of its subjects had been thus violated. No one can doubt that the present English excitement is due to the great social importance of members of the party massacred. Two of them were brothers of well known noblemen, and hence the whole island has been thrown into a condition of frantic indignation. Not only is English Hellenism defunct, but its former prevalence is now treated by some as a thing to be regretted, or even ashamed of. One leading London journal says, "we can no longer permit Greece to dishonor Europe, as it has done for forty years. Though it owes its existence to the general sympathy of the Christian powers, it has never ceased to disgrace them. Ungrateful, bankrupt and dishonorable, it long ago lost the sympathy of all reasonable people." The other papers are not more moderate in tone.

It must be admitted, however, that some reasons exist for such denunciations in the circumstances of the case, apart from the rank of the sufferers. The notorious political relations of the brigands, and the connection known to exist between them and the government opposition, are not agreeable things to contemplate. Then the vanity and arrogance of the Greek government, its ambitious pretensions and neglect of its own proper duties, are not favorable to foreign patience. It is reported as a certain fact that a large majority of the brigands who have for some years infested the country are former convicts released on condition of fighting the Turks in Crete, and then turned loose in Greece at the conclusion of the war.

A German journal, the *Gazette of Northern Germany*, referring to the violence of the English Press on the late outrage, reminds the writers that insecurity for life exists in other countries as well as Greece, and tells the *Times* in particular that "it forgets the murders reported every week, if not every day, in Irelands. A leading Russian journal, the *Nord*, takes occasion, from the exciting affair, to say a word that may help on the fate of "the sick man." While in England they praise the conduct of Turkey in offering to aid in catching the murderers, the *Nord* is of the opinion that Turkey is responsible for the dangers of traveling in Greece.

OVER THE WAR GULF.

Over the war gulf and on a smooth open sea! The present is a fitting time for retrospection and introspection. What of the past? What of the present? as respects the operation of the machinery of government.

Eighty years ago Governor MORRIS, speaking of the Constitution of the United States, said: "We have tried to make a union between eight republics and five oligarchies." The remark implies his want of faith in the harmony and efficiency of the new Federal Government. The records of the time show the prevalence, in different localities, of nearly opposite opinions as to the nature and extent of the powers which should be granted to the United States. One class of publicists, with the experience before them of the impotence of Continental Congresses and Confederacies for the purpose of national government, and with views of statesmanship more practical than those of their opponents, advocated the formation of a strong central government. Another class inheriting the traditional colonial distrust of British imperial power, aggravated by their recent tyranical colonial measures of the mother country, held to the inviolability of State Sovereignty. They were willing to constitute a central and common agency of State governments with limited and revocable powers. The former followed closely the British model. The latter would recognize no imperial power beyond the State. The advocates of a strong central government were found chiefly in the "eight republics." Those who most distrusted federal power came chiefly from the "five oligarchies," with, however, notable exceptions in both cases.

The constitution as it came from the convention was, strangely enough, the result of compromises of extreme opinions, and did not embody the exact political doctrines of any party. Having its origin in large and liberal mutual concessions, its authors and many other eminent public men, in a spirit of commendable conciliation very generally recommended it to the States for their adoption.

The new government went into operation, and soon appeared two parties, which, abating much of the extravagance of the political notions of the old but poorly organized schools, represented to a considerable extent their political principles. These differed widely as to the nature and extent of the powers vested in the Federal Government. One was the party of *liberal* construction. The other was the party of *strict* construction. There was no party of *fair, just* and *common sense* construction. The former being in the ascendency, controlled the Government for about twelve years, and was itself moderated and restrained by the wisdom of WASHINGTON during eight years of that period. It established a national bank, assumed the revolutionary debts of the States and gave an extravagant extension to the judicial power of the United States. The mission of this party appears to have been to put the machinery of national government in motion and to sustain it in operation until it acquired strength and consistency. It guarded the life of the nation through the perilous period of infancy and youth. This done, its work was finished.

The party of strict construction having succeeded in the elections of 1800, came into the control of the Government under liberal promises of reform of abuses and of change in the existing mode of administration. It contented itself, however, with the repeal of some unwise legislation and the correction of some abuses. The Government must go on, and it could go on well only in the beaten track. The Chief and other wise men in this party said there was no power in the Constitution to acquire additional territory, either by purchase or conquest. But we needed the control of the Mississippi. France was willing to cede to us the Louisiana Territory on fair terms. Considerations of national necessity pressed hard and there was nothing but a theory of construction in the way. JEFFERSON yielded his scruples, made the treaty and his party approved. But this act "outside of the Constitution" *was not to be drawn into a precedent*. MADISON denied the power to charter a National bank, but signed the act of 1816, *because the public interests*, in his opinion, *demanded it*, and theory again and always yielded to common sense in matters of practical legislation. But these centripetal and centrifugal forces of liberal and strict construction, operating in different directions, and with much force, aided by the growing prosperity of the whole country, had probably a larger agency in putting the government into the orbit of its just powers than the "wisdom of the Fathers of the Constitution" apotheosized in a thousand patriotic orations. Moving silently forward in a track equally removed from the broad road of Federalism and the narrow path of the old Democracy, it gathered its proper strength and vigor in a gradual development of its powers. There was, indeed a debatable frontier between the State and the National sovereignty. There were occasional jarrings and threatened collisions. There was, in one case, imminent danger of internal conflict. But the general course was peaceful, and the government was not put on the full exercise of its sovereign powers. Meantime the nation increased in wealth, resources and population beyond any parallel in history, and came to be recognized abroad as a great nation.

Notwithstanding this silent and solid constitutional growth, there were men of eminence in the public counsels who accorded to the Union only a precarious existence, dependent on the will of some or any of the States. Friends of the government, too, doubted whether it possessed the self-preserving and asserting powers of sovereignty. Thirty-five years ago DE TOCQUEVILLE wrote, after much study and observation of the workings of our institutions: "If the sovereignty of the Union were at the present day to engage in a struggle with that of the States, its defeat may be confidently predicted; and it is not probable that such a struggle would be seriously undertaken. As often as a steady resistance is offered to the Federal Government it will be found to yield. Experience has hitherto shown that whenever a State has demanded anything with perseverance and resolution, it has invariably succeeded; and that, if it has distinctly refused to act, it was left to do as it thought fit." Within ten years, threats of dissolution of the Union, made in the Southern States and reechoed by the Northern Democracy, were the ordinary arguments against candidates, measures and policies unacceptable to that party.

Twenty-five years after DE TOCQUEVILLE wrote, the Union was put upon the full exercise and strain of its powers. The doubts of friends were silenced and dispelled. No monarchy or empire ever showed greater strength or more vigorous life. The rebellious heresy of secession was trodden into the dust, and the blot of slavery washed out with patriotic blood. The foundations of the Government have been enlarged, and it has received, with the consent of the people, an accession of beneficent power. It now rests upon the basis of equal rights and protection for all. The plantom danger of centralization existed only in the fears of the slave-holding "oligarchies." These have been converted into Republics; and if the spirit of GOUVERNEUR MORRIS could look down upon the regenerated and strengthened Union of to-day, the cloud of distrust would lift from his soul.

In this hasty retrospection, it may not be unprofitable to inquire whether the machine of national government has throughout the protracted struggle maintained its own internal balance. Commencing with the administration of Gen. JACKSON, the Executive Department, for a period of thirty years, appeared to be growing in strength, and likely to attain an undue preponderance in the general government. The introduction of the party doctrine, that "to the victors belongs the spoils," meaning the offices, gave a great accession of strength to the Executive. The arbitrary temper of this great soldier and patriotic citizen, led him into measures in supposed derogation of the rights of the Legislature and Judiciary; but his great popularity enabled him to stand before the country without much scrutiny into the wisdom or legality of several of his official acts. None of his successors down to the period of Mr. LINCOLN's administration seemed willing to abate any of the pretensions of the Executive Department as administered by Gen. JACKSON, although none of them had the personal force of character of that extraordinary and upright man.

With Mr. LINCOLN came a strain on both the legislative and executive branches. It was the trying period of our history and the full strength of the whole Government was brought into exercise. The President, weighed down by the responsibility of the conduct of the war, willingly surrendered the executive patronage—the great source of executive power in peaceful times—to be dispensed by members of Congress. The attempt of President JOHNSON to resume it and exercise it in opposition to the wishes of the party which elected him, led to the passage of the Tenure-of-Office law, which under considerable modifications, is still retained. The statute reducing the number of Judges of the Supreme Court to seven, only to be repealed two years afterwards, and many other laws passed during the last four years, were blows aimed at executive authority, and intended to restrain its harmful exercise. The wise and necessary reconstruction measures were largely intended to have, and have in fact had the same effect. The unfortunate circumstances of an Executive, in a trying period, not possessing the public confidence, and the consequent and necessary resort to extreme legislative measures to restrain him from an injurious exercise of the powers of his office, have resulted in an aggrandisement of the Legislative at the expense of the Executive branch of the government. Congress at present seem disposed to treat the President as its agent and servant. It has practically usurped the power of appointment to office, and the principal business of some of its members seems to be to obtain their share or more than their share of the "spoils." The Senate especially seems to be tenacious of its newly acquired exective power evinced in the refusal to repeal the Tenure-of-Office law.

Recent events have demonstrated that the country has nothing to fear from the encroachments of executive power. But such is not the nature of legislative power. In Great Britain the House of Commons has, within a century reduced royalty and nobility to a shadow. The present Executive is much stronger with the people than Congress; but he is under such restraints as were imposed on none but his immediate predecessor.

Had we space, it could be demonstrated that the Judiciary has not its just weight in the Government. It too has been put under the restraint of legislative power. But let us hope that time and peace and national prosperity will assist to readjust the balance and carry the Government forward in her great career.

MR. PUSEY, the Commissioner of Statistics of Minnesota, has prepared a tabular statement which exhibits the most unprecedented and startling growth of that State. In 1850 the total area of the State was less than 2,000 acres. In 1869 it was 1,700,000 acres, an increase of over 500 per cent. As late as 1858 the State imported food. The next year the State grew nearly two and a half millions of bushels, and in 1869 the crop was 18,000,000 bushels. Population has increased from 172,000 in 1860 to 450,000 in 1870. We subjoin a few of the figures of Mr. Pusey, which are very interesting and suggestive:

Increase of cultivated area in nine yrs. per cent.	290
Increase in population	175
Increase in value of manufactures	345
Total value of real estate	$130,000,000
Total value of personal property	55,000,000
Grand total	$185,000,000

The number of land and lot owners in 1869 is 110,701, or more than the whole number of voters, a striking contrast with the condition of England where half the soil is owned by five hundred men.

THE Suez Canal has not proved as complete a triumph as was anticipated. Many difficulties in this short cut to the East Indies have presented themselves irrespective of the tolls. Several vessels have lately arrived at Calcutta in a sad plight in consequence of the intolerable heat. One vessel reached that port with every stoker dead and several of the native stokers employed on the P. and P. steamers had to succumb to the heat. They were sometimes hauled up on deck perfectly insensible, or jump overboard in a fit of madness. There is not a breath of air at such times in this fearful sea; rain has perhaps not fallen for several years, and even the young and the vigorous find all the vital powers tried to the severest limits.

IT is said that a man in St. Paul, Minnesota, has built a reservoir under his factory and tapped a sewer, the contents of which operating upon a turbine wheel, gives him eleven horse power for running the machinery of his establishment.

GENERAL AND PARTICULAR.

About forty unstudious middies in the naval school at Annapolis were marched out of chapel on a recent Sunday and compelled to study under the eye of an officer, while their comrades were enjoying divine service.

The consumption of albumen is enormous: In calico printing alone for fixing on cloth the new analine colors, Alsace, in France, uses 150,000 kilogrammes, or about 330,000 pounds a year of egg albumen, representing 37,500,000 eggs, or the product of 250,000 hens.

The Russian government is making arrangements to build a church in New York city where services are to be conducted according to the Greek form of worship. This will be the first church for such a purpose ever erected in this country.

The Londoners are much pleased with their new horse railroads, though the cars have to them a "transatlantic" look. They are surprised to learn how much easier ordinary vehicles run when they can get the wheels, on one or both sides, upon the smooth horse car rails.

The carriage drive and promenade, opened at Liverpool, is three miles long, and its construction has cost sixty thousand pounds sterling.

The Channel Islands are reported to have sunk more than forty feet during the last five centuries. The inhabitants will have ample time to move if the sinking process is not accelerated in the future.

Of Russia's 219 newspapers, 147 are printed in Russian, 30 German, 27 Polish, 30 Finish, 4 Hebrew, 3 Lettish, 3 French, 1 Esthonian, and 1 Armenian.

An ecclesiastical warehouse in London, which supplies "articles for piety" to ritualistic Christians, advertises "Iron Discipline," consisting of a "cat," with several tails of linked iron wire, the ends of each link projecting in the form of spikes. There are also bracelets for the head, arms, legs and body, smooth on the outside, but with small spikes on the inside to mortify the flesh of devout Christians.

An irreverent Athens correspondent, speaking of the new railroad from that city to Piræus, says: "Think of Socrates soliloquizing over a steam engine, Diogenes with his tub dead-heading it to Piræus, or haggling about a seven cent ticket; of Euripides working up a railroad catastrophe into one of his polished tragedies; of the courtly Xenophon taking topographical notes for his Anabasis from the window of a sleeping car; or of Alcibiades lolling in the smoking car and playing a game of high low jack for the cigars."

The rector, wardens, vestry, and parish of St. Andrew's, Hanover, Mass., have voted unanimously to lay aside the white surplice, and to use only the black gown in the service of that church. The reasons assigned for this action are briefly: 1st, That the use of the surplice is not in unison with the simplicity of the gospel dispensation, being a continuation of the priestly epoch of the Jewish Church. 2d. That there is a settled purpose among some of the clergy and laity of the Episcopal Church to multiply priestly robes and pompous ceremonies not required or authorized by the canons of the church and opposed to the genius of our republican institutions—against which they feel bound to protest. 3d. They adopt the gown as an appropriate ministerial garment for a Protestant minister, because it has been used as such ever since the Reformation, and imparts a gravity and decorum to the service, while it does not sanction the idea of priesthood in the Christain ministry.

The bombs which were alleged to have been manufactured for the destruction of the Emperor Napoleon were filled with a new fulminating powder as dangerous to the maker as to his victim. The substance was unknown up to the present, and is formed of twenty parts of chloride of lime, ten of prussiate of potash, and five of sulphur in powder. The slightest friction, pressure or shock produces an explosion of fearful violence. Competent persons who have examined the projectiles consider them terrible engines of destruction, but most unfit for assassinating a person in a carriage. They would have to be thrown from an elevated position; and from the form of the shell and the force of explosion it is thought that the debris would not rise, but sweep along the ground. Flung from a barricade into a close column of troops, the effect would be fearful.

The consumption of wood in the United States is enormous. Railway sleepers alone require 150,000 acres of the best timber every year. The annual expenditures in wood for railway buildings, repairs and cars is $38,500,000. The locomotives in the United States consume annually $56,000,000 worth of wood. The wood industry amounts to $500,000,000. There are 400,000 artisans in wood.

Who can but admire the stoicism of a Devonshire man, who, when on his death bed the other day, begged his wife and children to have the funeral procession start early, so that they might be sure and get home by milking time.

Chief Justice Gilpin, of Delaware, says that the best liquor law the State ever had was almost a literal transcript of one framed by William Penn, and that the Legislature, by its persistent tinkering, has been steadily making it worse for the last thirty years.

There is a breed of horses in southern Texas known as the red fox. They are the large medium pony, being a cross between the Spanish horse and mustang pony. They are distinguished by a streak along the back, from the mane to the tail, of the deep color of the red fox—the body being of a lighter color. The limbs are of the finest form and finish—bodies rather long and round; the whole build indicating great endurance, activity and speed. They are kindly disposed, but full of high mettle. They perform good service under the saddle, but are especially valuable in harness. They trot like dogs, and with a prairie country before them will leave eighty to a hundred miles behind them in a day.

A San Francisco merchant who had an unsalable article consigned to him from the East, got his personal friends together, assigned each a street, and instructed them to call at every store and inquire for this particular article. Then he advertised the goods and the retailers, surprised at the unusual call which had been made for them, took them all off his hands at a high price.

M. Cavalier, a well-known scientific man, writes to the Paris papers that the velocipede bombs manufactured by Lasset, if truly described by the journals favored with the earliest police information about them, must have been utterly unfit for any other use than that to which they have been put—a tremendous explosion of false alarm in the provinces.

THE report of the House Committee on Manufactures successfully controverts the position of Commissioner Wells, who has lately become the recipient of the most fulsome eulogy by the free traders, and whose statements have been regarded by them as infallible. The report emphatically condemns the course of Mr. Wells in thus endeavoring to break down American interests. The committee express the belief that his report could only have been written in the interest of foreign producers and manufacturers, and that its suggestions and recommendations, if followed by consequent legislation, would be hostile to the best interests of the country. Among the many inconsistencies of Mr. Wells is mentioned his assumption that the farmer is oppressed by the present tariff and currency, while the report of this same Commissioner, Mr. Wells, for 1868, attempted to show that for many years, under the operations of the same tariff and currency, the farmer had reaped *undue* profits. But Mr. Wells is now playing an important political part in making his untruthful statements, which are evidently designed to excite jealousy between our agricultural and manufacturing interests. The report of the committee takes direct issue with the Wells's misstatements in reference to the prices, costs and aggregate values of manufactures, and shows the unreliability of his statistics in reference to wool, cotton, pig iron, etc., and notices the suppression of certain facts by Mr. Wells, which would go to disprove his arguments. The Committee further objects to Mr. Wells's report that it unfairly and untruthfully deprecates the condition of our artisans and laborers, endeavoring to create the impression that, through the operations of the present tariff and the present currency system, labor does not command the same reward it did ten years ago, when the fact is patent to all that the general prosperity of the people during the past ten years, notwithstanding the drain of a great war, has been most marvelous and wholly unprecedented, and while it omits any detailed exhibition of the growth of our manufactures under the existing tariff system, and it endeavors to cast suspicion and odium upon American manufacturers whose gains and strength belong to their country, unpatriotically seeking to establish the principle that dependence upon foreign manufactures is our natural condition, in defiance of the policy of all enlightened nations whose civilization has been built and whose people have prospered by it; a protective policy of our own country, established since the formation of the Government under which we have always prorpered, and every departure from which has resulted in the enforced idleness of the laboring classes, individual suffering and bankruptcy, and loss of national credit and revenue.

This report conveys a strong censure on this free trade commissioner, and, coming from seven of the nine members of the committee, is invested with an influence in thus being officially communicated to Congress that may well be considered potent to Mr. Wells, who having originally derived his official position at Washington from President Johnson, has but little claim on President Grant, and whose zealous efforts in behalf of foreign interests certainly do not entitle him to much weight with the present administration.

A PATENT mixture for sprinkling streets, consisting of cloride of calcium (not chloride of lime) and common salt dissolved in water, has been tried in New York lately, with various opinions as to its utility. While the inventor claims that, being deliquiscent, it will remain damp longer, and require to be less frequently applied, it is more economical, on the other hand it has been pronounced by Professor Chandler, chemist to the Board of Health, a worthless invention, producing very nasty, sickly mud, and that pure water is in every way preferable. Even the assumption of the inventor, that his mixture will remove contagion from the air is disproved by the Professor, who says that cloride of calcium is not a disinfectant, and is therefore not available for sanitary purposes.

THE old Anneke Jans case against Trinity Church, of New York, still lives, notwithstanding its advanced age, and we are strongly reminded of the delays incident to a chancery suit recorded in Dickens's "Bleak House." A *copias* was issued, the other day, against the Wardens of the church, the service of which created considerable excitement among them. The *copias* was issued by Mr. Raymond Van Guissen in behalf of his associates.

PERSONAL.

Lum Ling Wan, a native Chinese physician, proposes to settle in New York and enter upon the practice of his profession. He brings with him his wife, an interpreter, Lu Sing; two Chinese apothecaries, Ah Mok and Ah Sam, and an endless assortment of drugs and medicines.

Nillson recently sang before the Empress, at the Tuileries. Her Majesty inquired if it was true she was going to the United States, and on Christine's reply in the affirmative, set herself to work in the most gallant but earnest manner to oppose it. Nillson replied that she would be glad to cancel her engagement if possible on account of the inducements made her by the Empress to stay in Paris.

David Octavius Hill, the well known Scotch artist, whose death was announced by cable on the 19th, was born at Perth in 1820, his father, Mr. Thos. Hill, being a bookseller at that place. At an early age the deceased exhibited a taste for art was and sent to Edinburg, where he studied under the late Andrew Wilson. In 1823 his first works, comprising three pictures of Scotch scenery, were exhibited at Edinburg, and attracted much attention by the artistic skill displayed upon them. Mr. Hill now rose rapidly into prominence as an artist. He received the appointment of Secretary of the New Royal Scottish Academy of Painting in 1830, and it was while holding this position that a controversy was carried on with the dispensers of government patronage to art in Scotland which led to the appointment of a commission whose report was so favorable to the claims of the Academy that a public structure was erected in Edinburg for a Scottish National Gallery and Royal Academy. In 1850 Mr. Hill was appointed one of the commissioners to the Board of Manufactures in Scotland. The art of photography was greatly benefitted by him, after the discovery in 1843, Mr. Hill doing much towards developing its artistic capabilities.

The invention of soda water is ascribed to Dr. Hawkins, of Philadelphia, a blind chemist, who in 1812 made the first soda fountain in this country.

An Englishman, Alex. Charles Ewald, F. S. A., and of Her Majesty's Record Office, has compiled a reference book of history, containing a table of chronology, lists of sovereigns, dictionary of battles and sieges, etc. His citations in regard to the late rebellion are very amusing. He locates Fort Pillow in North Carolina, and on page 313 we are told that "Fort McAllister was captured from the American Federals by the Confederates under Sherman, December 13, 1864."

Major Stephen A. Douglas has been appointed Brigadier General of the Seventeenth brigade of the North Carolina militia.

Alexander H. Stephens sits bolstered up with pillows, and is so feeble that he can barely rise and hobble about the room a little on crutches.

Francis Joseph proposes to furnish the metal for a grand monument to Haydn in the gardens of the Esterhazy palace, Vienna.

A woman in Iowa City, Iowa, whose husband has been in the insane asylum for two years, recently applied for divorce on the ground of desertion. The suit was dismissed at plaintiff's cost.

Acting Governor Pound, of Wisconsin, has pardoned the murderer of a woman, who was under life sentence, in acknowledgment of his heroism at the recent fire in the State Prison. Through his exertions several lives were saved.

Minister Motley's dispatch that the Earl of Clarendon and he had signed the naturalization treaty, at 6½ P. M. on the 13th inst., was read by Secretary Fish at 2 P. M. on the same day.

Mr. and Mrs. Foster Clark, of Skaneateles, N. Y., celebrated their golden wedding on the evening of the 9th inst., at the house of their son, who, with his wife, at the same time celebrated his silver wedding. Both families were present entire, the family circle not having been broken by death in fifty years.

Hon. John P. Hale is to sail from Liverpool on the 1st of June, and is expected to reach Dover, N. H., about the 15th. His old friends are preparing to give him a public reception.

The Viceroy of Egypt has presented to the University of Oxford, where his son Hassan is now a student, a complete collection of Oriental literature, printed at Boulak, comprising seventy-four distinct works, in 140 volumes.

AN informal meeting was held at the Chamber of Commerce of San Francisco on the 12th instant, for the purpose of favoring the annexation of the Fejee Islands to the United States or establishing a protectorate over them. A Mr. Winters, who had resided for eight years on Viti Levu, one of the largest of the group, gave a glowing description of the climate, and expressed the opinion that the inducements to settle there were greater than in any portion of the globe. The Polynesian Society at Melborne, had taken preliminary measures to pay off the debt of the islands due the United States, about $40,000, and take in return the title to 200,000 acres. This society was in favor of annexation to the United States, and had already memorialized Congress on the subject. The group of islands consisted of two or three large ones and nearly two hundred small ones, with an aggregate area of between 5,000,000 and 6,000,000 acres. The entire population was believed to be about 200,000, of whom about 2,000 are whites. The islands are already resorted to by whalers, and as a shipping station they must become of the greatest importance to the United States. Cotton of superior quality was raised at limited cost, and was destined to become a very profitable crop. The cotton tree produced cotton at all seasons, and there was no danger of a loss of the crop if it was not gathered in at once. This year the entire crop would amount to about ten thousand bales, and it was increasing every year.

ENGLISH influence in the New World, if measured by trade, is more stupendous at the present day than it ever was before, upward of one-third of the whole English trade being carried on with North and South America and the West Indies. The total aggregate amount of British imports and exports in 1869, exclusive of bullion and specie, and of foreign and colonial produce re-exported, was £367,000,000, comprising £67,000,000 with the United States, £37,000,000 with South America, £13,000,000 with British North America, £7,000,000 with the British West Indies, £7,000,000 with Cuba and other West Indian possessions. England's whole commerce may be stated as follows:

America	£130,000,000	Egypt	25,000,000
India, China and Ceylon	80,000,000	Turkey	16,000,000
Australia	26,000,000	Euro'n countries	90,000,000
Total	£367,000,000		

The trade with the United States alone constitutes nearly one-sixth of the whole of English commerce; and yet the New World, which contributes as much as Asia, Australia, and Egypt together, and one-third more than all Europe, toward British enterprise and prosperity, has found at all times, and especially during our civil war, its most insidious enemy in Great Britain. England would be reduced to beggary were it not for the immense outlet offered by America to her industry and commerce.

THE fall elections this year are to decide not only the character of the next House of Representatives, but also, to a certain extent, that of the Senate. Twenty Senators will be elected by the next State Legislatures. The Senators whose term expire on the 4th of March next are Morrill, of Maine; Cragin, of New Hampshire; Wilson, of Massachusetts; Anthony, of Rhode Island; Cattell, of New Jersey; Willey, of West Virginia; Johnson, of Virginia; Abbott, of North Carolina; Robertson, of South Carolina; Fowler, of Tennessee; Grimes, of Iowa; Howard, of Michigan; Thayer, of Nebraska; Ross, of Kansas; Yates, of Illinois; McDonald, of Arkansas; Revels, of Mississippi; Williams, of Oregon; Harris, of Louisiana; Warner, of Alabama; Saulsbury, of Delaware; McCreery, of Kentucky; and Norton, of Minnesota. The outgoing Senators are all Republicans, except Saulsbury, McCreery and Norton. The seat of Mr. Fowler has already been filled by a Democrat, and that of Mr. Grimes by a Republican. The Democrats will probably loose one Senator in Minnesota, and gain in New Jersey, Oregon, and perhaps one or two Southern States. In many of the States the contest will be spirited, for personal as well as for political reasons.

AT the trial of an old man named Stowe for the murder of one Roberts, in Janesville, Wisconsin, the mother of the murdered man was present, when an exciting scene took place at the close of the District Attorney's speech. Mrs. Roberts, who had been a quiet and attentive listener to the argument, arose and said that she desired to make a few remarks to the jury. The Judge requested her to sit down, but she was persistent, and the Sheriff was compelled to interfere. She took her seat for a moment, and the officer stepped away, when she again sprang to her feet, exclaiming, "He killed my son and I will kill him;" rushed upon the old man Stowe, and grasping him by the throat and head, caused the blood to flow from the wounds she inflicted. The Sheriff and his assistants interfered, and she was forced from the court room, still declaring she would yet accomplish her purpose.

A WOMAN who deals quite extensively in flour has asked to be admitted to the Chicago Board of Trade. If all the women who deal in flour, rice flour especially, were admitted to the Board of Trade, the female suffrage question would soon be settled.

OHIO NEWS.

Henry, a poor young man, eloped from Elyria with Laura, the daughter of "rich but respectable parents," and went to Detroit to get married. Enraged pater famil ias followed, and arrived in time to prevent the nuptials. They all departed for home on the same train, the old man swearing, the daughter crying, and the young man looking as if he should like to kick somebody.

One of the pioneers of the Mad River Valley, Arthur Johnson, died lately at Fairfield, aged eighty-two years. He was followed to his grave by an elder brother, who is approaching closely his ninety-ninth year, and is yet hale and hearty.

Six cities of the second class, during the year 1869, annexed territory to their corporate limits, with a view to a good showing in the census to be taken in 1870, viz: Tiffin, Canton, Massillon, Newark, Xenia, Piqua. Several others have done likewise this year came in, among the rest Cullicothe, Portsmouth, Zanesville, and perhaps others, did the same in 1868.

The grapes on Kelley's Island are said to look better this spring than for years. If the weather continues good while they are in blossom there will be a good yield.

On the 13th, a man by the name of P. F. Wilson, living in Seville, Medina county, was assaulted by Julius Harris, and beat in so dreadful a manner that his life is in danger. It is claimed that Wilson has been writing letters to a little daughter of Mr. Harris, only fourteen years of age, asking her to meet him, and that on the letters being shown to her father, he determined to chastise the lecherous individual.

Fishing with pounds has been better than usual this spring. Thirty and forty tons of fish are frequently carried into Sandusky in a day.

Joseph Denman has been committed to jail at Norwalk for attempting to rape a young girl at Wakeman.

The soldiers' monument for Oberlin will be one of the handsomest of the kind in the world. It is to be forty feet high, of elaborate Gothic style, and made of sandstone. The badges of all the army corps have been nicely worked on the sides, and there will be four marble tables for the names of the deceased soldiers from Oberlin. The corner-stone is to be laid on Decoration Day.

AFTER a session marked by harmony and pleasant feeling, the Diocesan Convention of the Protestant Episcopal Church at Philadelphia adjourned on Friday. The main feature of its work was the division of the diocese on what is known as the "five-county line." Philadelphia, Berks, Chester, Delaware, and Montgomery remain as the diocese of Philadelphia, while the remaining counties of the old diocese will be formed into a new one, to be known, most likely, as the Diocese of Reading. The vote on this question, which was felt to be the main matter before the Convention, was so heavily in the affirmative as to be substantially unanimous.

THE Western Social Science Association will hold its second meeting in Chicago on the 8th and 9th of June next. The papers announced to be read embrace a variety of important subjects, including history, insanity, idiocy, industrial education, prison reform, criminal law, minority representation, and others of equal moment, all by persons of eminent ability or special knowledge upon the themes selected. The Association has proposed to itself a comprehensive discussion of all that relates to sociology, and invites the co-operation, either by personal attendance or contribution of papers by mail, of all persons interested in the problems of society.

ST. MARK'S CHURCH, New York, is in want of a clergyman, and offer a salary of from $5,000 to $10,000, according to the calibre of the applicant. They would have secured Rev. Philip Brooks, only he had just settled himself in Boston and did not feel prepared to make another change. The successful applicant must be a low churchman of attractive pulpit powers, and able to awaken the interest of a wealthy but rather dormant congregation. Rev. M. Flagg, of the Church of the Resurrection, is in temporary charge of the parish.

PICKING up gold is a pleasant pastime. So thought, a few days since, the children of Mr. A. L. Hathaway, of Shelburne, Vermont, who found a couple of gold pieces on the beach. They carried the money home and showed it to Mr. Hathaway, who went to the spot and succeeded in finding eighteen pieces more. The pieces proved to be gold guineas, with dates ranging from 1749 to 1776. The gold value of the money found is about $100.

MISS MARY VACHE, an accomplished singer, and a lady of rare literary accomplishments, for many years connected with the Richings opera troupe, died at Charleston, S. C., last week, after an illness of three weeks, contracted while with the troupe during their recent visit to that city. She was twenty-three years of age, and a great favorite among her associates. Her remains were sent by steamer to her family in Philadelphia.

THE Kiowa Indians some years ago murdered a man and his wife, burned their cabin and carried off their two children into horrible captivity. These two children, rechristened Helen and Heloise Lincoln, were rescued recently, and an act of Congress giving each of them $2,500 has just been passed. The total sum of $5,000 is to be taken out of the moneys due the Kiowas.

GEN. GEORGE H. THOMAS left no will. The amount of his personal estate is reported to be $40,000. His brothers, John W. Thomas and Benjamin R. Thomas, are still living, and also three sisters, Judith E., Ann and Frances Thomas, who live on a plantation near Newman's Depot, Southampton county, Va.

FOR social and moral eccentricities, Paris is without a rival. One of the latest sensations there is a new society, already numbering a hundred, whose members pledge themselves to bequeath their bodies to the doctors for dissection. This shows an enthusiastic interest in medical and surgical science which is wholly unparalleled.

IN New York an unknown man and woman occupying a room in the second story of No. 5 Delancy street, disappeared on Thursday night. Yesterday morning detectives found a large excavation in the brick wall, which, with another hour's work, would have given admission to a vault in the next building, containing $1,000,000 worth of jewelry and watches.

THE Atlantic National Aank, New York, had been victimized by a series of heavy forgeries, and that certain well known individuals were implicated. The facts of the case are, simply, that the bank has lost $500—no more, no less—and that the individual is known to nobody outside of the circle of the detective notice.

WINE OF LIFE.
The great Blood Purifier and Delicious Drink, WARNER'S VINUM VITÆ, OR WINE OF LIFE, is free from any poisonous drugs or impurities, being prepared for those who require a stimulant. It is a splendid appetizer and tonic, and the finest thing in the world for purifying the blood. It is the most pleasant and delicious article ever offered to the public, far superior to brandy, whisky, wine bitters or any other article. It is more healthy, and cheaper. Both male and female, young or old, can take the Wine of Life—It is, in fact a life preserver. Those who wish to enjoy good health and a free flow of lively spirits, will do well to take the Wine of Life. It is different from any thing ever before in use. It is sold by druggists; also at all respectable saloons. Price One Dollar, in quart bottles.
For sale by all Druggists.

FINANCE AND TRADE.

SATURDAY EVENING, May 21, 1870.

The local money market is working easily, with no change in current rates for loans. In local stocks we have no particular movement to note.

—The following statement exhibits the business of the Pittsburgh Clearing House for the week ending Saturday, May 21, 1870:

	Exchanges.	Balances.
May 16	$733,881 42	$126,230 32
May 17	565,013 05	111,595 41
May 18	462,348 18	79,390 47
May 19	666,759 91	140,856 97
May 20	475,023 32	65,180 65
May 21	497,267 71	85,285 06
Total	$3,400,293 59	$608,538 88

—Of the New York market the *Herald* of Saturday says: The money market was abundantly supplied at three to four per cent. on Governments and at three to five per cent. on stocks. The banks are again overwhelmed with national bank notes, which are so numerous in the city that the Assistant United States Treasurer in making payment to-day for two million of bonds bought yesterday had to pay two-thirds of the disbursement in this description of currency. Commercial paper is quoted at 5½ to 7 per cent. for the different varieties of prime double name acceptances.

—The gold market was almost stagnant. The price, however, was steady at 114¼@114⅜, in sympathy with the continued firmness in the foreign exchange market, which was active to-day at 109⅝ for prime sixty days' bills, and upon rumors that the gold bars on deposit at the Sub-Treasury are likely to be withdrawn for shipment by the next steamers.

—The *Tribune* says: There appears to be a general collapse in the market notwithstanding the ease with which money can be obtained by those who have bonds and stocks for security. New York Central and Hudson, 101; New Jersey Central, 109; Cleveland and Pittsburgh, 106½; Chicago and Northwestern, 81⅛; Toledo and Wabash, 55¾; Ohio and Mississippi, 38¼; Chicago and Alton, 115, and Hannibal and St. Joseph, 112¾—seem to stand up under the pressure remarkably well, while Lake Shore sold at the first board on Monday at 98⅞, and to-day at 97.

—On the Stock Exchange, says the *Times*, the Southern State bonds were in fair demand, and the prices something better than yesterday. The Railway market, influenced in some degree by the fall in Lake Shore yesterday, and continued heavy sales of the stock to-day, was very much unsettled and the lower tone of confidence betrayed on the side of the *Bull* party for a day or two past, has inspired the opposite party with courage to put out *short* contracts. There is no particular reason given for this change of feeling, beyond the suspicion that during the upward excitement of last week, which culminated on Thursday, May 12, a large amount of the Western stocks was turned upon the weaker speculators of the street by one or more of the bull combinations, and while this operation was followed by stiffer figures for New York Central and Reading, the western list has not been able to recover its buoyancy, though several times this week showing signs of recovery. To-day the weak spot was Lake Shore. There were also heavy sales of Rock Island at about 120@120¼ ⅌ cent., and a dullish feeling in the St. Paul stocks. The impression was less unfavorable against the North-Wests and Ohio and Mississippi. New York Central and Reading were comparatively steady. The miscellaneous list was weak on the decline in Pacific Mail.

—The dullness in the gold market and the decline in stocks generally have not as yet influenced the Government bonds. They remain strong, and the delay in Congress in acting upon the Funding bill tends, if anything, to give them greater firmness, and to make them altogether the most desirable security at this time offered to the public in the way of certainty of interest on the investment.

—**James W. Kennedy, Broker, No. 80 Fourth avenue,** (Apollo Building), dealer in United States Bonds, State and Municipal Securities, Railroad, Bank, Insurance and Miscellaneous Stocks. Being represented in the New York Stock Boards every day while in session, he purchases and sells on commission any stocks on the regular lists on the same terms as the New York brokers. Governments, Gold and Railway Stocks purchased for customers on the usual margin.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY EVENING, May 21, 1870.

BUSINESS—We are reported a falling off in the demand for the leading articles. This, however, may be expected when the season is taken into consideration. The weather on Saturday was unusually warm. Our rivers are declining steadily, and the packets are on their last trip unless we have another rise. Flour—we can report a fair jobbing demand and an occasional order for a few hundred barrels for the Eastern markets; holders are firm in their views, and not disposed to made concessions in order to effect sales. As usual the largest inquiry was for the better grades. The mills are well supplied with wheat. Bacon and provisions are in good demand at prices previously noted. The stock in hand is only a moderate one, and will soon be exhausted unless stock from other markets can be obtained; prices are pretty steep, but no higher than fresh meat, notwithstanding the former cost considerable more than the latter in the first place, independent of the trouble and expense of carrying. Groceries—We have nothing that is really new to notice in regard to this article. The demand was active for the season. Sugars are firmer, but not quoted higher. The Eastern markets are reported ⅛c higher, with no little excitement. Molasses and syrups hold their own. Coffees are a shade easier, although we can learn of no sales above quotations.

The following are the wholesale prices unless otherwise noted:

ASHES—We have nothing new to note. The firmness in the East has produced a similar effect here. We are reported sales of soda ash, common, at 4c; refined 4½c; pearl 9@9½c; potash 7¼@7½c.

APPLE BUTTER—Dull. The supply exceeds the demand; prices nominal at 50@60c ⅌ gal.

BROOMS—The market was not an active one; we are reported sales from store: fancy $5 50; No. 1 at $4 50; No. 2 at $4 00; No. 3 at $3 50; common at $2 50@3 00 ⅌ dozen, as per quality.

BEANS—The demand was restricted to limited parcels for home purposes; prices nominal at $1 50@1 75 ⅌ bbl.

APPLES—The market was quiet. The stock has reduced to a very small amount. We note sales of eating ones $4@4 50@4 75; mixed lots sold at various prices, ranging from $1 75@2 50 ⅌ bbl, as per quality and condition.

DRIED FRUIT—The demand was limited and prices were drooping. Sales were reported at the following: Apples 6@7c; peaches—quarters 7@7½c; halves 9c ⅌ lb.

CHEESE—The market was not an active one, the demand being confined to the wants of the local trade. Sales of Factory at 15@16c; Goshen 17c.

CARBON OIL—The market exhibited but little change; we note sales standard brands at 24@24½c ⅌ gallon.

BROOM CORN—Market dull and prices unchanged, with sales at 13@16c ⅌ lb.

BUTTER—The market continues to be well supplied with the various descriptions. Sales were reported at various prices. Fresh roll, strictly prime, was held at 18, 20@22c ⅌ lb. Other lots sold at a variety of prices. The receipts were 16 packages.

EGGS—The market was firm with a fair trade demand. Prices are stronger and tending upward. We are reported sales at 16@17c ⅌ doz., from first hands.

WHISKY—The market was steady with a good trade demand at the following: Common rectified $1 05; proof rectified $1 15; rye whisky $1 05@1 75, according to age; sales two year old at $2 25; old rye retailing from $4 00@6 00@8 00 ⅌ gallon, according to age.

POTATOES—The market contains a supply in excess of the demand. Prices, however, have undergone no change; sales of mixed lots from wharf and depot at 35@40c; sales prime peach blows from store at 45@48c ⅌ bushel.

FEED—The market ruled firm with a fair demand. The mills report purchasers for all they have to sell. The following are the wholesale prices for round lots: Bran $1 00 ⅌ cwt; shipstuffs $1 10; middlings $1 60; screenings 90c; chop $1 30; sweepings $1 75; rye shorts $1 50 ⅌ cwt.

HOMINY—The market was quiet, with only a limited stock to operate with. Prices nominal at $6 00@6 50 ⅌ barrel.

CORN MEAL—Nothing doing worthy of notice; sales were reported at 95c@$1 ⅌ bushel.

SOAPS—Babbitt's 11½c; Oakley's 10½c; chemical olive 7½c; No. 1 rosin 5½c.

SAPOLIO—Enoch Morgan's Sons 6 doz case $7 00.

BAKING POWDER—Banner ¼ lb cans $1 75 ⅌ doz; ½ do $3 25; 1 lb do $6 00; Bishoprick's ¼ lb cans $1 50 ⅌ doz; ½ lb do $3 25; Royal ¼ lb cans $1 75; ½ lb do $5 00 ⅌ doz.

RYE FLOUR—The market was firm with improved demand and sales at $5@5 25 ⅌ bbl.

LIME—The market was quiet, with a moderate demand; sales of common white at $1 75; Cleveland white $2 25 ⅌ bbl.

CEMENT—Sales of Phoenix Hydraulic at $2 50@2 75 ⅌ bbl; sales of Louisville Hyraulic $3 00@3 75 ⅌ bbl.

COOPERAGE—Sales of pails $2 35; Tubs—No. 1 $11 00; No. 2 $9 50 and No. 3 $8 50. Market well supplied.

STRAW—The market is without change; we are reported sales at $13 ⅌ ton.

POULTRY—Market firm, with regular sales of live chickens by the coop at 90c@$1 00 ⅌ pair.

FLOUR—The market since our last has undergone no particular change as relates to prices or demands. Dealers report a good business being transacted for the local trade, with occasional orders for other markets. The receipts since our last were 811 barrels. The current rates were as follows from store: Choice winter wheat in bbls $6 65; $6 35 in sacks; fancy white wheat $6 in bbls, and $5 75 sacks; white spring flour $6 25 in bbls, and $5 in sacks; Sippo Valley $6 in bbls, and $5 75 in sacks; Miami $5 75 in bbls, and $5 50 in sacks; Old Town $5 75 in bbls, and $5 50 in sacks; Star Light $5 85; Springfield $5 75; Lilly white $5 50, and 25@30c off in sacks; Spring Valley $5 85 ⅌ bbl; Dayton City $5 85; Wayne City $6; Gem of the West $5 75; Andrews's choice $6 25 ⅌ bbl, and 25c off in sacks. The mill prices are as follows: Double extra in bbls $6 60; in sacks $6 30; extra winter wheat in barrels $5 90; in sacks $5 60; extra family winter wheat, in barrels $5 60; in sacks $5 30; superfine winter wheat, in barrels $4 75; in sacks $4 45. Three Stars, green brand, in barrels $7 40; in sacks $7 10; Two Stars, blue brands, $6 70; in sacks $6 40; Winfred Mills extra, $4 75 ⅌ barrel.

BERRIES—Strawberries—light supply; sales at 40@50c ⅌ quart, in quantity.

FRESH VEGETABLES—Cucumbers are coming in more freely; sales at $1 ⅌ doz by the bbl. Green peas scarce; sales at $6 00 ⅌ bbl.

GROCERIES—The market was steady, with a fair trade demand. Prices have undergone no change worthy of notice. The current rates were:

COFFEES—Market more settled. Rio ordinary 18½c; fair to good at 19@20c; prime 22@22½c; choice 22½@23c; strictly choice 23c; Java 27c; roasting coffees—loose, 21c; papers, 25c.

REFINED SUGARS—Crushed, powdered and granulated, 13¾c; A coffee, 12¾@13c; B do 12½c; extra C 12¼c.

NEW ORLEANS SUGARS—Fair 10c; good 10½c; prime 11½c; choice 12c ⅌ lb.

BUSINESS.

The market, as usual, for some time past has undergone a variety of changes, one day favoring buyers and the next day sellers, and so on from day to day so that reliable quotations are difficult to obtain. The news from the oil regions was very conflicting. Notwithstanding the new wells struck and the increase in the yield previous prices have been generally maintained, in fact for some time past prices have varied but little. The receipts since our last by river and rail amounted to 12,281 bbls, a falling off as compared with the previous week of 5,680 bbls. This can be explained by the low stage of water in the Allegheny.

CRUDE RECEIPTS.

The following are the crude receipts by river and rail for the past two weeks:

	Last week.	This week.
Crude received, bbls	17,961	12,281

SATURDAY'S TRANSACTIONS.

CRUDE.

The market was steady, with a fair inquiry for early delivery, at prices that were current. The day previous the sales were 1,600 bbls S. O. till July 11¼c; sales 1,000 bbls S. O. last half June 12¼c; sales 1,000 bbls last half July 12¾c; sales 1,000 bbls spot 40@45 gravity 12½c; sales 1,000 bbls July S. O. 12¼c.

Quotations—Spot or May 12¼c, June 12¼c, July 12¼@12½c, all year S. O. 11¾c, B. O. all year was offered at at 14c; we heard of 12½c being offered for August.

REFINED.

The market was firm with a good inquiry early in the day and towards noon a decline of fully ¼c for May, June and July delivery; the sales were 500 bbls B. O. all year 29c; sales 600 F. O. B. in cars here at 23½c; spot is quoted at 27@27½c, May 27½c, June 27½c, July 27½c, July to December 28c, August to December 28c bid.

[By Western Union Telegraph.]

TITUSVILLE, May 20.—The *Herald* says: The market is without any great degree of animation, and though the majority of sales reported were at the figures of yesterday, the daily decline of five cents per barrel that has marked the past week was not visible to-day, and the local markets may be considered as at a stand still, though a shade weaker feeling was perceptible at the close. Upon the Lower Creek $4 30 was the ruling bid, and most of the sales reported were at that figure; upon the Upper Creek there were buyers and sellers at $4 15, which was the best price offered. No change in Eastern and foreign markets.

PITTSBURGH LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL, SATURDAY, May 21, 1870.

Closing Markets—Cattle.

The market was fairly active since Wednesday, but the run was light, and the prices obtained fair. The total number of cars of live stock received into the Central Yards for the week, as furnished by Mr. Murphy, of the Supply Office, was as follows: Cattle, 169 car-loads; horses, 22; hogs, 139; sheep, 117.

The following is the number shipped to Eastern markets during the week ending to-day, as taken from the records in the office of Mr. Mitchell, of the Pennsylvania Railroad Company:

	Horses.	Cattle.	Sheep.	Hogs.	T'ls.
Philadelphia	32	25	20	6	83
New York	105	72	51	1	230
Baltimore	...	7	2	...	9
Point of Rocks	8	...	6	...	14

We have nothing particularly new to note as to the market for cattle since Wednesday. The attendance of Eastern buyers continued large during the entire week, and the supply failed to meet the demand. The offerings were very light, and consequently the market was very strong, and the prices of the opening market ruled firm. The demand for stock cattle continues brisk, as the grass crop is all that could be desired. The offerings of this class of stock continues very light.

PRICES.

The following are the ruling prices during the week: Extra 1,200 to 1,500 steers, $8@8 50; good to prime, 1,100 to 1,200, $7 75@8 12½; common to medium, 1,000 to 1,100, $7 25@7 75; bulls, stags and cows, 800 to 1,500, $5 50@6 80; stock steers, 800 to 1,000, $5 75@6 15.

Sheep.

The arrivals continued heavy during the week, and consequently the market ruled weak under a decline of fully ½c from last week's quotations. The demand has fallen off, and under the influence of the increased run the market was a very poor one. The heavy runs on Monday and Tuesday supplied the demand for the week. The number of sheep weighed since Wednesday was 6,178 head, and for the week 21,919, as reported by the obliging Weighmaster, George S. Howland, Esq.

PRICES.

The following are the average prices during the week: Extra 100 to 110 lbs, $5 50@6; good to prime, 85 to 90 lbs, $5@5 50; decent to fair, 75 to 80 lbs, $4 50@4 75; mean to common, 70 to 75 lbs, $4@4 25; foot rot and scalawags, by the head, $1 00@1 50.

Hogs.

Notwithstanding the hot weather the arrival of hogs since Wednesday was rather heavy number of sales to 15c per hundred. Good for the season. In consequence of the increased run of hogs prices advanced in a Philadelphia Hogs sold at 10c; York hogs from 8¾@9¼c, and Baltimore hogs from 9@9½c. The number weighed since Wednesday, by Mr J. G. Imhoff, was 2,292 head, and for the week 5,737 head.

PRICES.

The following were the ruling rates: Extra, Philadelphia, $9 50@10; good to prime, Philadelphia, 225 to 250 lbs, $9 25@9 50; good to prime, New York, 180 to 220 lbs, $9 12@9 25; rough to common, 150 to 200 lbs, $8 50@8 75; light stock hogs, 80 to 100 lbs, $7@8.

IRON MARKETS.

IRONTON.

May 19—The *Register* says: Complete stagnation characterizes the market for metal, and the transactions are so few and small that the tendency or prices cannot be ascertained.

Both the rolling mills in this place are in full operation, as are all the other iron works.

Mears, Olhaber & Co. meditate an extension of their stove foundry.

Within the last few days, Lawrence, Howard and Hecla furnaces have gone into blast.

The Grant furnace hot blast approaches completion. Charcoal is now being received at the furnace.

Prices of metal are about as follows:

Foundry, No. 1 H. B.	$38 00@41 00
Foundry, No. 2 H. B.	37 00@38 00
Mill	35 00@37 00
Cold blast	60 00@65 00
Stone coal, Belont	36 00@38 00

PHILADELPHIA.

May 21.—The failure of the tariff reduction has tended to stiffen up pig iron, and there is more demand for it, especially for foundry iron. About 17,000 tons Lehigh brands changed hands on terms not made public, but at a price below $30 ⅌ ton. Sales of No. 1 foundry in a small way at $33 and No. 2 at $31. Forge iron is nominal at $27@29.

Manufactured Iron—Bar iron remains about the same, and it is very scarce, owing to the prolonged stoppage of the Philadelphia mills. English iron can be put down at our doors for $72, a price with which our mills cannot compete. We quote refined at $74@77 50, and common at $68@70. 100 tons old rails sold at $45.

Scotch Pig—Is dull. Small sales at $33.

Blooms—Are dull; prices nominal.

Nails—Are scarce, and reports come to us of the partial stoppage of many of the mills in Pittsburgh, and the entire suspension of those in Wheeling, W. Va. The Duncannon Iron Company advanced their price on the 7th instant to $4 50 ⅌ keg, and a few of the other mills have since followed their example.

Anchors and Chains—Are unchanged. We quote at 7c for the former, and 6c ⅌ lb for the latter.

Philadelphia Wool Market.

PHILADELPHIA, May 21.—We have again to record a dull market, and prices incline in favor of buyers; in some instances to the extent of 1@2c ⅌ lb. It is the general impression that the new clip will open at lower figures than last season. The trade in woolen goods is very unsatisfactory, and the prospects of the manufacturers not of the most encouraging character. We hear that a few of the mills have stopped their machinery, and others are preparing to do likewise. The sales comprise:

35,000 lbs Ohio mixed fleece at	50c
46,000 lbs Ohio XX	51c
1,000 lbs Ohio X	48c
5,000 lbs Ohio fine	46@47c
12,000 lbs Ohio fat sheep	50½c
7,000 lbs Ohio fat sheep washed	53c
32,000 lbs tub	52c
5,000 lbs tub	50c
7,000 lbs scoured fleece	50@60c
15,000 lbs No. 1 pulled	40c
8,000 lbs No. 1 pulled	39c
6,000 lbs Western pulled	38c
7,000 lbs City pulled	41c
10,000 lbs Merino pulled	38c
6,000 lbs Black	32½c
1,000 lbs unwashed	29c
800 lbs Western unwashed	30@32c
2,000 lbs Pennsylvania fine, unwashed	26@27c
5,000 lbs Texas	16c
5,000 lbs California, Fall	22c

New York Finance and Trade.

Gold Closed at 114¼@114⅜.

NEW YORK, May 21—P. M.

COTTON.

The cotton movement for the week was heavy. Receipts at all ports 44,655; exports 45,787.

TRADE.

General trade of the city rather larger than last week, and markets generally firm, though breadstuffs and hog products are lower.

MONONGAHELA—Three feet eleven inches and falling slowly.

THE marks last evening indicated three feet eleven inches and falling slowly. The weather continues very warm. Trade on the landing was dull. The packets want more water.

THE Lorena is at Ashland, awaiting a new shaft from Pittsburgh.

ONLY 8½ feet of water on Walker's bar is reported by the last boats up.

THE steamer Importer passed Vicksburg on Friday *en route* for New Orleans.

THE Nat Williams is laid up at the head waters of Kentucky river, waiting for the June rise.

THE steamer St. Charles was aground on Glass house yesterday, but expected to get off last night.

THE steamer Julia No. 2, Capt. Stull, will arrive to-day, and leave for Zanesville on Tuesday at 4 P. M.

THE steamer Arlington, Capt. Moore, is due to-day. She will leave on Friday at the regular time.

THE steamer Wauanita, Captain Conway, was announced to leave Cincinnati for this port on Saturday.

THE towboat J. S. Neal has been sold to R. R. Hudson, of the Marine Dock Company, of Middleport, Ohio.

THE steamer Glendale, Capt. Hare, passed Cincinnati on Friday *en route* for St. Louis with a good trip.

IMPORTANT TO RIVER MEN.—Barges, boats and flats built promptly to order by W. McClintock, Jr., & Co., Twenty-seventh street. Orders solicited.

LOUISVILLE.—The *Commercial* says: The long talked of and hoped for improvement in our canal has commenced in earnest. Gen. Weitzel has a very large force at work on the new locks.

DEATH OF A RIVERMAN.—Frank Whiting, clerk of the Northern Line packet Savanna, died on Friday at Columbus, Indiana, of inflammation of the bowels. His remains will be brought to this city for interment.

THE Messenger, *en route* from St. Louis, has the following freight for Clark & Co., 1,200 bbls flour; Thos. Coffin, 16 bbls crude clay; Penn Salt Manufacturing Co., 41 cases lye; Nimick & Co., 50 tons pig iron; Jno. Crawford & Co., 20 ditto; Luckhaupt & Keifer, 120 green hides; H. Gerwig, 14 bales hemp.

THE United States mail packets on the slack water leaves daily at 8 A. M. and 6 P. M. These boats have unsurpassed accomodations and are in charge of experienced and attentive officers. Capt. Carlisle, at the wharf boat, can furnish all the necessary information.

THE Memphis *Appeal* says: The C. B. Church was towed to the boneyard to await events. The M. J. Wicks will continue in the St. Louis trade, and will carry freights at the rates now prevailing *i. e.*: Flour 5c ⅌ bbl.; pound freights 5c ⅌ 100 lbs.

A RECENT investigation by an English board of trade has developed the fact that many of the English merchant vessels are eighty years old and over. The investigation was made in the interest of sailors who go down to the sea in ships, and do business in the great waters.

The St. Louis *Democrat*, of Saturday, is responsible for the following: Our good friend, A. J. McConnell, clerk of the Arkansas, was elated yesterday—more so than he has been for a year past. A telegram from Pittsburgh brought him gratifying intelligence. If he could only get away from business so as to visit Pittsburgh and see *them*, the visit would be the happiest of his chequered life.

SOME months ago the suit of Peter Beissel *vs.* W. G. and M. S. Mepham, as pilot and master of the mountain boat Iron City, was dismissed in the United States District Court at St. Louis, and appealed to the United States Circuit Court. The decision of the District Court was there reversed and judgment given for the plaintiff for $2,900. The defendants appealed the case to the United States Supreme Court, and the latter Court has affirmed the decision of the Circuit Court.

SATURDAY'S St. Louis *Democrat* has the following: Capt. M. A. Cox had the satisfaction of a squaring up of affairs yesterday with the parties who purchased his Colossal. He left at 3 P. M. by rail for Brownsville, Pa., and we wish him a pleasant run. After a few days domestication he will inquire about building prospects. If they are satisfactory, we believe the Captain will soon give out a contract for one of the best Arkansas boats ever built. Probably no steamboatman ever left St. Louis whom the people wish so much to see back presently. So, come along as soon's you can.

The New Albany *Commercial* says: The following is a statement showing the number of steamboats built at the port of New Albany from August, 1840, to June, 1856, a period of sixteen years, which will give our readers some idea of the importance of this branch of industry in former times:

Period of Time.	No. of Boats.	Tonnage.	Value Afloat.
Previous to 1820	4	880	$75,856
Five years to 1825	1	120	11,206

THE clerk of the Camelia, Wm. Braithwaite, furnishes the following interesting particulars in regard to the sinking of the Robert Moore: The Moore was following the Camelia up Smithland Island, when the Camelia grounded about the same time the Moore struck a snag or rock. She filled rapidly, and sunk in two or three minutes. The accident occurred at half past two o'clock, Tuesday morning. The Moore called for assistance, but the Camelia, being aground, could only send her yawl. The Camelia, after getting off, laid by the Moore till morning, and then went back to Smithland and took up a boat to save what freight they could. She took the Moore's passengers, and left her officers and crew aboard saving what they could. No lives were lost. The Moore lies straight, with her bow in six and a half and her stern in fifteen feet of water. The Tyrone, which sunk at Tobacco Point, Saturday night, lies in ten feet of water.

SUNDAY OBSERVANCE.—On Sunday, the 13th day of February last, the steamer Camelia, from Pittsburgh to Nashville, landed at the city wharf and discharged a lot of freight for O. T. Bull & Co. It being Sunday, the freight could not be delivered, but was put upon the wharf and thoroughly dunaged and tarpaulined, notwithstanding it was clear at the time and no signs of immediate rain. It, however, commenced raining that night, and continued to rain the greater part of Monday, causing the freight in question to be considerably damaged. Bull & Co. brought suit against the steamer Camelia. The suit was tried Saturday before Joseph Clement, Esq., and a decision was rendered in favor of the boat. The Court held that the officers of the Camelia had used every precaution in their power to protect the freight from damage, and was, therefore, not liable for a providential occurrent.—*Louisville Courier*.

FINANCIAL.

LOAN

OF THE

Chesapeake & Ohio

RAILROAD CO.

The advantages and attractions of this LOAN, for investment purposes, are many and important:

1. It is based upon one of the Great THROUGH LINES BETWEEN THE SEABOARD AND THE WEST.

2. THE SECURITY IS ALREADY CREATED, the greater part of the Line being in successful running operation.

3. The Local Traffic, from the *unrivalled Agricultural Regions and Iron and Coal Deposits* adjacent, must be large and profitable.

4. The enterprise receives IMPORTANT CONCESSIONS AND PRIVILEGES from the States of Virginia and West Virginia.

5. It is under the management of efficient and WELL KNOWN CAPITALISTS, whose names are guarantees for its EARLY COMPLETION and successful operation.

6. The Bonds can be had either in

COUPON OR REGISTERED

form; they have thirty years to run, both principal and interest being payable in gold.

7. They are of denominations of

$1,000, $500 and $100,

bearing interest at the rate of six per cent. in coin, payable May 1st and November 1st.

From our intimate acquaintance with the affairs and condition of the Company, *we know these securities to be peculiarly desirable and suitable for safe employment of surplus Capital, and funding of Government Bonds*, by Investors, Trustees of Estates, and others who prefer absolute security with reasonable income.

Holders of United States Five-Twenties are enabled to procure *these Bonds, bearing the same rate of interest and having a longer period to run*, and to realize a large increase of capital in addition.

Bonds and Stocks dealt in at the Stock Exchange, received in exchange for this Loan, at the full market value, and the Bonds returned free of express charges.

Price 90 and Accrued Interest in Currency.

Pamphlets, Maps, and full information furnished on application.

CITY MATTERS.

List of Unmailable Letters.

The following is a list of letters held at the Pittsburgh Postoffice for want of pre-payment of postage, and on account of misdirection. The writers can get them by applying at the Postoffice:

	Cents.
Bradley, Daniel; Philadelphia, Pa	3
Evans & Co; Philadelphia Pa	3
Gragiadel, Dom; New York	3
Hubbard, Josephine; Sharon, Pa	3
Steele, J. E; Oil City, Pa	1
Reed, Geo. W; Washington, Pa	3

PERSONAL.—Mayor Love, of Steubenville, is in the city at present.

DEPARTED.—Mr. Garrett, President of the Baltimore and Ohio Railroad, and party departed for the West on Saturday morning.

BASE BALL.—The Hazelwood nine, a junior organization, is open to challenges, having now become fully organized. Challenges may be sent to John Hughart, Secretary.

MILITARY ELECTION.—The Duquesne Grays, Co. H, Saturday night elected S. F. DeJones Captain; Joseph B. Steiner First Lieutenant, and Isaac W. Jones Second Lieutenant.

GONE UP.—Edward Smith and William *alias* "Muck" McElvany were, by order of Mayor Brush, taken to the Workhouse on Saturday, for thirty days each, for disorderly conduct.

A CARELESS DRIVER.—A German driver named Lewis Post was arrested for driving his team against a woman on Penn street, in the Twelfth ward, Saturday night.

ROBBED.—An Irish emigrant was knocked down in the vicinity of the emigrant depot, Saturday night, and robbed of thirty dollars in money and a valuable gold watch. There is no clue to the perpetrator of the robbery.

THE DUQUESNE GRAYS.—The committee appointed to draw up a Constitution and By-Laws for Company F. Duquesne Grays, have been at work, and will be ready to report at the next meeting.

ESCAPE AND ARREST.—Ben. Wallace, who escaped from the Workhouse on Friday last, was arrested on Saturday night for drunkenness. He will be taken to Claremont to-day, in company with six others confined in the lock-up.

WASHINGTON INFANTRY.—The citizens of the Fourteenth ward will present to the Washington Infantry on Saturday next a handsome silk flag. Rev. D. T. Carnahan will make the presentation speech, and Major A. M. Brown will respond.

CONFIDENCE GAME.—A sheep dealer from Hocking county, Ohio, came to this city last week and sold a drove of sheep and started home with a well filled pocket book. He was swindled out of $450 by two confidence men, who left him at Steubenville.

A BREACH OF PROMISE CASE.—Alderman Neeper has a breach of promise case now pending before him, in which a well known young merchant of this city figures as defendant, and a young lady of the Fourth Ward, Allegheny, as prosecutrix.

PARTIAL HEARING.—There was a partial hearing before Alderman Nicholson, on Friday, in the case of Homer Redpath and Robert McCutcheon, charged with being common gamblers. A further hearing will take place on Wednesday.

A FIRST CLASS man is wanted in each county in Pennsylvania, to represent the old Phœnix Mutual Life Insurance Company of Hartford, Connecticut. To energetic men, good terms and material aid will be given. Address with references T. H. Brosnan, General Agent, Lock Box 84, Pittsburgh. MWF

THE TURNER'S CONGRESS.—The Turners' Congress of the United States will meet in this city next week. Delegates will be present from all parts of the Union, representing some twelve thousand members of the society. One of the features will be a gymnastic exhibition, which will be given some time during the session.

CHRISTY BRADFORD IN LIMBO.—This notorious man, who has been out of town for several months, is in jail at Louisville, and will be brought here on a process from court. Christie was about being sentenced for a criminal offense, of which he had just been convicted, when he gave the officer the slip and escaped, after a vigorous chase up Wylie street. He will yet be sentenced, if he does not again slip the officers.

CARS TO BE LIGHTED WITH GAS.—The Pennsylvania Railroad Company have commenced building a gas house at the Union Depot with a view of lighting their cars with gas. Pipes with flexible attachments will lead from the gas tank to the depot platform, and through these the gas will be forced into the tanks in the cars. Enough will be taken at a time to burn two nights. The arrangements will probably be completed in about a month.

MERCY HOSPITAL FAIR.—The voting at Charity Booth fair closed Saturday evening with the following result: Silver tea set, Mrs. J. J. McCormick 600 votes; Miss Lizzie Mooney 700; gold watch, John Cowley 460; Capt. T. W. Loughrey 750. Fruit stand, Mrs. David B. Jenkins 125, Miss Carrie Pier 200. The gold headed cane for the most popular individual was won by Mr. Barney Burns. The watch for the most popular young man was won by Mr. P. M. Hansbrow.

THE funeral of Nicholas Wagner, who died suddenly in Shoenberger's mill on Friday afternoon, an account of which appeared in the COMMERCIAL on Saturday, took place yesterday, (Sunday,) from his residence on Eighteenth street. The members of the firm exhibited their usual generosity by giving aid in every way to the unfortunate man's family, and they, with some one hundred and fifty or two hundred employees, attended the funeral. We understand the men employed in the mill will contribute a handsome sum of money for the widowed wife and fatherless children.

CARTER'S INK.—The general impression among the business community for years has been that there is no ink made in this country equal to foreign. This was more or less true, until Carter's ink was introduced by some of our wide-awake stationers, and since then we have been supplied with this ink, which answers equally well for writing and copying purposes, and which we consider superior to any ink, foreign or domestic. Messrs. Allan C. Bakewell & Co., (in connection with the printing office of Bakewell & Marthen's,) intend opening a first-class stationery store at No. 75 Wood street, about the 1st of June, and have secured the *sole agency* for the sale of this ink in Pittsburgh. We wish them a hearty success in their new undertaking, and anticipate for them an extensive sale of Carter's combined writing and copying ink.

Fugitive From Justice.

On Saturday Mayor Brush received a letter from Niles, Ohio, stating that Henry C. Chase, confined in jail at that place on a charge of bigamy, had escaped, and from all accounts had fled to Pittsburgh. The letter contained a request that the Mayor use his endeavors to cause the arrest of the said Chase. Officer Fred Rivers was entrusted with the case, and in a short time he ascertained that an individual boarding in the Twelfth ward and sailing under the cognomen of Charles Parks, was none other than the bigamist Chase. He therefore took him into custody, lodged him in the watch-house, and early this morning started for Niles with the prisoner.

A Successful Firm.

Messrs. Reynolds, Steen & Co., queensware dealers, at No. 124 Wood street, who opened their large and elegant stock but a few weeks ago, have been transacting a very large trade, and are daily attracting new customers. It is rarely that a new firm enters so auspiciously into business, but the fact that they have the finest and most desirable goods to be found in the market, the largest assortments from which to select, and sell at the lowest rates, is a sufficient explanation of the extraordinary degree of success with which they have met. They have a full line of imported China and crockery, and deal extensively in lamps, chimneys and glassware of every description. Those dealing in these classes of goods will find it to their advantage to give Messrs. Reynolds, Steen & Co. a call.

The Enterprise Cooking Range.

This range is without doubt one of the most convenient, economical, effective and durable in the market. It possesses numerous advantages over other inventions of its class, among which we may mention the following: It has but one damper, and is, therefore, easily managed; being constructed with a basket grate, it has no side linings to burn out; the fumes arising from cooking are carried off by means of a large ventilator; it has a large roasting and broiling oven at the side, with an open grate, together with elevated double ovens, both of which will bake and roast perfectly. One of the prominent features of this excellent range is that it has an improved water heater, which will rapidly heat water to supply all parts of a large house. It also has a larger and more evenly heated cooking surface than any other range in the market. We advise all persons who contemplate purchasing a cooking range, to call at the manufactory of B. S. Koll & Co., No. 147 Wood street, and examine the Enterprise.

The Rush House.

It is known that Mr. Marker Rush, the former popular proprietor of the Rush House, who was for some time in business in Philadelphia, has returned to this city, and has again assumed the proprietorship of the excellent hotel which bears his name, and of which he is the founder. The location of this hotel, at the corner of Liberty and Canal streets, nearly opposite the Union Depot Hotel, together with its favorable reputation with the traveling public, place it among the prosperous hotels of the city. Mr. Rush, ever looking to the comfort of his numerous patrons, is constantly making extensive improvements, the latest of which is a thorough renovation of the commodious dining rooms, (of which there are two—one being devoted to the accommodation of ladies,) both of which have been papered and painted, and are now fitted up in accordance with the prevailing eastern style. Every other portion of the house has likewise undergone vast improvements, and the Rush House to-day is one of the most desirable stopping places open to the public.

Base Ball News.

Quite an interesting affair came off at Lawrenceville on Saturday afternoon, being a match between the "Enterprise, Jr.," Club, of Allegheny, and the "Washington" Club, of Lawrenceville—both juvenile organizations. The match was stoutly contested, and good playing was made on both sides. The game resulted in a victory for the "Enterprise, Jr.," the score standing 21 to 17. The umpire was Frank Lang; scorer, Samuel Shane.

There is some talk of having a great base ball tournament in Allegheny on the Fourth of July.

The base ball players of East Liberty met recently and organized a club named the "Resolute Base Ball Club of East Liberty." The following officers were elected: Charles Negley President; W. H. Frew Captain; T. B. McKraig Treasurer. The following players will represent the club, and from which the first nine will be chosen: W. N. Frew, T. C. McKaig, John McClintock, C. Kable, C. L. Wrightman, Charles Negley, L. Kable, G. Parker, J. Neale, J. S. Crawford, F. Barr. The club is now ready for matches.

The Osceola Club have their hands full for some time to come. On Saturday they played the Lawrence. They have accepted the challenge of the Rapids Club, the colored organization, and the match will come off at Union Park, Allegheny, on Saturday next. The novelty of a game between white and colored base ballists will no doubt attract a large crowd to witness it. On the Saturday following, June 4th, the Osceolas play the Coal City Club, of Allegheny.

TEACHERS' INSTITUTE.

Second and Last Session of the Pittsburgh Institute, at Hazelwood, on Saturday—Interesting Exercises—Discussion on the Question of Corporal Punishment.

The Institute met according to adjournment on Saturday morning at 9:30 o'clock, and was opened with a song entitled, "What shall the harvest be," by Messrs. Horner, Darling and Slack, of the Allegheny Quartette Club.

Mr. Burtt submitted a report setting forth that at the annual teachers' banquet, held in April last, the total amount received for tickets was $448 50. The expenditures amounted to $368, leaving a balance of $80 50, which had been paid over to the Treasurer of the Institute.

On motion of Mr. Logan the report was accepted and a vote of thanks tendered the committee for turning over the balance to the Institute.

Professor G. N. Munro then delivered a decidedly good lecture on "Oral Instruction," and was applauded considerably.

The members of the Quartette then sang, "I only remember by what I have learned."

The roll was then called over, and the teachers present recorded.

The list of those teachers having paid the tax levy was then called over.

A recess of five minutes was then taken, after which Mr. Bancroft, Professor in the High School, submitted a report of the Auditing Committee appointed at the last annual meeting. The amount received from fees, &c., was $25 60; amount received from county $200 00, making a total of $225 60. The expenditures amounted to $295 10. On motion, the report was accepted and the committee discharged.

A class drill in charge of Mrs. Kate L. Anderson, of the Oakland school, then took place. The children displayed a wonderful degree of proficiency in reading, so marked as to receive the hearty applaudits of all present.

The next question in order was declared to be the discussion on the subject, "Should corporal punishment be abolished in the public schools."

Mr. Kelly, who was appointed to open the discussion, stated that inasmuch as it was very late, the matter ought to be postponed until next meeting. He made a motion to that effect. The motion was carried.

Mr. Harrison hoped that hereafter when a programme was adopted for the Institute that it would be adhered to.

Miss Bella Scott then read a piece entitled "The Bells."

On motion the question of corporal punishment was then taken up for consideration, the time for adjournment not yet having arrived.

Mr. Kelly, in opening the discussion, said that he would do it briefly, hoping that the matter would be fully ventilated. He did not believe the teacher the proper person to inflict corporal punishment, because it had a tendency to wean the scholar from the teacher. This was one of the reasons he had for not upholding corporal punishment. Another reason was because it was not in usage in any of the higher schools of learning. Perhaps some would say that city schools were not analagous. He believed otherwise and said that it could not be found in the Central High School, Jefferson College and other places of higher learning.

Mr. Harrison said it was difficult to hazard an opinion on the question without being the subject, more or less, of criticism. New York, Albany, Baltimore, and all important cities were interested in the question. He lamented the necessity of corporal punishment, but he would not give way to the abolition of corporal punishment if the necessities of the occasion demanded it. Pupils or children differ largely from grown up people. Their ideas of right and wrong are far more crude. If persons of maturity did wrong they were imprisoned; if a child did wrong what was to become of it? Imprisonment? No. Should it be locked up? No. Then the most rational method of punishing that scholar was with the rod. The abuse of a right conferred upon a teacher of using the rod was not the business of the community, but of the directors of the ward. He objected to the abuse of the right, but he believed that the schools would be more effectual if corporal punishment was maintained. He did not think corporal punishment would degrade a child as much as a crime which it had committed, and for which it was allowed to go unpunished. Its abolition would plant seeds in the minds of the pupils that would never be eradicated. It would be detrimental to the schools to abolish it.

Mr. Luckey wanted the question settled now and for all time to come. This could only be done by the teachers taking a bold stand and saying that we were not flogging masters, but those chosen to instruct and educate the young, and that they could do it without the aid of corporal punishment.

Mr. Harrison offered the following resolution:

Resolved, That in the opinion of this Institute the abolition of corporal punishment in the public schools would tend to lessen the efficiency of the teachers and be productive of disorder and confusion in the management of their establishment.

Mr. Harrison said the matter had been matured in the minds of the teachers, and they were doubtless ready to vote on it now. He therefore insisted on the passage of the resolution.

Prof. Crum, Mr. Burtt, Mr. Craig, and others, were opposed to the adoption of the resolution, because the matter was of considerable importance and should be open for discussion.

A motion to postpone action was here made and carried, after which the Institute adjourned.

The various teachers present then dispersed, and visited the houses of different citizens of the ward, where they partook of the hospitalities therein spread before them, and during the afternoon and evening returned to the city by way of the Connellsville Railroad.

Before the train left the station at Hazelwood, a resolution tendering a vote of thanks to the people of Hazelwood, for their generous hospitality, was unanimously adopted.

THE WOMAN SUFFRAGE ASSOCIATION.

What the German Press Thinks of It.

The *Volksblatt* of last Friday contains the following article which is the first decided expression of the German press upon the Woman Suffrage Association:

OUR WOMAN'S RIGHTS LADIES.

"It would be improper to fire with grape-shot at butterflies." This was up to this time our leading idea in regard to the movement concerning the so-called Woman's Rights. We did not think this movement was a fit object to be attacked by the weight of logical argumentation. In our opinion this movement is an outgrowth of our peculiarly American "notions," as far as the development of our society at large is concerned. This movement will in due time disappear from the scene of action without having been in any way successful. Notwithstanding, this movement is in some respects interesting; it affords us an inside view of the opinions of many of our ladies, who, not content with the power they are wielding indirectly, ask for equal rights with the male sex, and who are properly speaking, desirous of inaugurating the most radical revolution that can be thought of.

It was strikingly apparent to any one, that had the opportunity of being present at the meetings of our Women's Suffrage Association, that girls of the age of from seventeen to twenty, were very anxious to act as the most zealous "world improvers." Those half grown girls are speaking of the tyranical notions of men, and with an energy that would prove to be more useful in certain other relations of social life. The most important questions of national life are easily solved in the little heads of these ladies; they say, "Let us have the right to vote and the millenium will commence!" With real admiration these young ladies are looked upon by the ladies of more mature years; these are in hopes, that this promising branch of Young America will not fail, at some future day, to steal old Jove's thunderbolt; that is to say, that these young ladies at some future day will act like sovereigns at the polls, just like men.

Looking at an assemblage of the Woman's Suffrage Association, who are, by the way, dressed according to all the extravagances of fashion, one can't help thinking, that (in most cases at least) the husbands and fathers of those ladies have to work very hard in order to be able to fit up their wives and daughters in so stylish a manner—while these same wives and daughters are busy, by dint of idle speaking and reading exercises, to slander the sex of their husbands and fathers; for they say these men are the worst egotists of creation, who are not ashamed of keeping down the women.

ROWDYISM.

Three Roughs Try Their Hand and are Arrested—Mayor Brush Talks to Them.

Saturday afternoon, between four and five o'clock, considerable excitement was occasioned on Smithfield street, in the vicinity of Auth's saloon, by three rowdies, named David Robinson, John Keef and William McClure. It seems that they were in Auth's saloon drinking, when Matthew Keller, driver of one of Straub's brewery wagons, came in. The parties named then went out, and as soon as the driver emerged from the saloon, a citizen told him that three men had taken a keg of beer from the wagon and carried it into an alley between Auth's saloon and the adjoining house. There the driver bent his steps and found Robinson, Keef and McClure with the keg of beer. Instantly he was set upon and most brutally beaten. He then started towards the wagon, when he was again knocked down. The rowdies then ran down Smithfield street towards Sixth avenue, and Keller followed them for the purpose of causing their arrest, when he was again set upon and knocked down. The police officers appeared soon after, arrested the parties and conveyed them to the lock-up. McClure had a friend who left $50 for his appearance Sunday morning, and was released. The others occupied a cell during the night, and yesterday morning the whole party were before His Honor Mayor Brush. Several witnesses testified to the facts as above related, and a fine of $50 and costs was imposed on each. Keef's brother paid the fine and was released. The others were sentenced to the Workhouse for thirty days each in default thereof. Mr. Keller, will make information for assault and battery against McClure to-day and on this charge he will be held to answer at Court. The others will likely have to answer hereafter for their rowdylike conduct.

The Pittsburgh System of Sewerage—What a Newspaper Correspondent Thinks of Our City.

A correspondent of the Erie *Republican* writes as follows in regard to the Pittsburgh system of sewerage: "This city, comprising nearly 300,000 people, has not a mile of sewer surface drainage. If your patent leathers are nicely polished you do not know at what moment they may be badly soiled by a jet of dirty water from the waste pipes, which are plumbed from almost every house and building directly upon the sidewalk."

The correspondent says further that the ruling spirit of Pittsburgh is enterprise. "Elegant residences are rare compared with the number of inhabitants; elegant fountains, superb flowers, gardens, romantic arbors and artistic lawns are not known outside of the few who can *afford them as well as not*. Every street and alley is lined with *an enterprise*. Shops, mills, factories, works, prevail everywhere. Enterprise is the spirit which rules. The dust and smoke and grime of business seems to be the laughing-gas, the vital force, the only comfort of the place. All are busy, all are smoked and soiled. All have their sleeves rolled up, and 'go for' that which makes business.

"Pittsburgh has not found its level of elegance and comfort. It should pattern after Erie for these features. Erie should pattern after Pittsburgh for points of prosperity, growth and enterprise."

Health Report.

Dr. McCandless, Physician of the Board of Health, reports forty-one deaths in the city during the week ending May 16th, of which only eleven were adults, the balance being children. From this it would seem that the mortality among the children is on the increase. The diseases are stated as follows: Cancer of pancreas and fever, 1; compression of brain, 1, measles, 3; acute cerebral softening, 1; anemia, 1; murdered, 1; congestion of liver, 1; chronic bronchitis, 1; scarlet fever, 5; inflammation of lungs, 1; emphysema with enlargement of the heart, 1; pneumonia, 2; neglect, 1; inanition of bowels, 2; catarrh fever, 1; enteritis, 1; pneumo thorax, 1; debility, 1; tubercular meningitis, 1; injury, 1; diptheria, 1; marasmus, 1; still born 3; pertussis, 1; consumption, 2; premature birth, 3; spasms, 1. Under 1 year, 16; from 1 to 2, 4; from 2 to 5, 6; from 5 to 10, 4; from 20 to 30, 3; from 30 to 40, 2; from 40 to 50, 2; from 50 to 60, 1; from 60 to 70, 1; from 70 to 80 1; from 80 to 90, 1. Males, 25; females, 16; white, 38; colored, 3.

A FEARFUL FALL.

A Child Falls from a Second Story Window and is Dangerously Injured.

Saturday morning, about eight o'clock, an accident of a shocking nature happened in the family of Gottlieb Fox, residing on Wylie avenue, between Chatham and Federal streets. Mrs. Fox was in the third story, putting a room in order, and sent her little daughter, aged five years, to the story below for a towel. While the child was absent, Mrs. Fox heard screams in the street, and on looking was horrified to find her little Emma lying on the pavement, seemingly dead. The child was taken up in an unconscious state, and it was found that she had fractured a leg and an arm, and had sustained severe internal injuries. She had stopped to look out at the second story window, before attending to her errand, and while thus engaged had lost her equilibrium and fallen to the pavement, a distance of twelve feet. Yesterday forenoon the child was still living, but the internal injuries it is feared will prove fatal.

English Opera.

Caroline Richings Bernard's English Opera Troupe commence their brief season at the Opera House to-night, when Balfe's delightful opera of "The Bohemian Girl" will be performed. Miss Emma Howson will sustain the part of Arline, and will be ably supported by Mrs. Bowler, Mrs. Drayton, Messrs. Bowler, Drayton and Peakes. The chorus is large and well drilled, and the orchestra one of the best. The initial opera contains many beautiful gems which will no doubt be finely rendered. The sale of seats has been, large rendering the success of the opera week certain. To-morrow evening Adams's new opera, the Postillion of Lonjumeau, will be given for the first time in this city, when Mrs. Richings Bernard will make her first appearance. The sale of seats for one or more performances will be continued to-day.

Police Intelligence.

[Before Mayor Brush.]

SATURDAY NIGHT'S DOINGS.

Twenty-nine arrests were made in the central part of the city on Saturday night and two in the Twelfth ward. These were brought before Mayor Brush on Sunday morning and disposed of according to their merits.

WORK HOUSE LIST.

The following persons were sentenced to the Workhouse: Thomas Irwin 90 days; Pat O'Connor 60 days; Harry Simmons 30 days; Wm. McClure 30 days, and David Robinson 30 days. They are now in the lock-up awaiting transportation to Claremont.

PAID FINES.

George Snyder paid a fine of $5 and costs for disorderly conduct.

Michael Dale went out riding with his wife and children on Saturday evening, got drunk and had a dispute with the toll keeper at Soho; knocked the toll keeper down and also a man who interfered to settle the difficulty and then jumped into the buggy and drove off toward town. He afterwards discovered a male friend, took him into the buggy with him and subsequently engaged in a fight with him. He was arrested while thus employed and conveyed to the lock-up and Sunday morning was charged the moderate sum of $25 and costs for his fun. He paid the fine and was released.

John Henry, arrested by officer Lewis McMullan for disorderly conduct, was fined ten dollars and costs, which he paid and was released.

Aaron Reynolds, colored, was arrested while indulging in the pastime of abusing his mistress. Ten dollars and costs was assessed against him, in default of which he went to jail for ten days.

"Mocking Bird" Joe, otherwise Joseph Bowman, who was up on Saturday morning for drunkenness, was before the Mayor again on Sunday morning. He paid the usual fine and departed.

Harry Simmons was arrested on the following charge: That he went to the house of an aged couple named Shore, living on Mulberry alley, and when ordered to leave the premises choked the old gentleman severely and abused the wife. In default of a fine of $25 and costs he was ordered to Claremont for thirty days.

[Before Alderman McMasters.]

ASSAULT AND BATTERY.

Mary Barrett charged Thomas Cooper with assault and battery. The parties reside in Temperanceville, and the suit was the result of family broils. Thomas was arrested and required to give bail for a hearing.

LARCENY.

Two parties, named Smith and Rosewell were playing "shuffle board" in a Diamond saloon, on Friday night, and the game became interesting, a stake was raised and placed in the hands of a stranger, who absconded. An officer with a warrant is looking after the stranger.

[Before Alderman Taylor.]

HIGHWAY ROBBERY.

Saturday morning, John Hetchel, a pedler, appeared before Alderman Taylor, of the Ninth ward, and preferred an information for highway robbery against a man named William Morris, alleging that the defendant knocked him down and robbed him of ten dollars. The occurrence took place on Penn street, on Friday night, the parties being previous acquaintances and happening together apparently after a "spree." Morris was arrested and required to give bail for his appearance at a hearing. He denies the charge.

ALLEGHENY.

WILL MEET.—Allegheny Councils will hold their next regular semi-monthly meeting next Thursday night.

GONE TO CHICAGO.—Miss Lillie Hawkes has gone to Chicago, where she contemplates spending the summer.

NEW UNIFORMS.—The special police in the Park have been furnished with uniforms corresponding with the regular force.

PIPE LAYING.—Workmen are engaged in laying gas and water pipes in that portion of the Park abutting on Stockton avenue.

DECORATION SERMON.—Rev. J. Clark, D. D., will preach a Decoration sermon in his church next Sabbath afternoon at three o'clock. Doubtless there will be a large attendance.

THIRTEEN.—The Mayor's court presented quite a lively appearance yesterday morning, there being an unusually large number of cases which required his attention. Thirteen was the number before him, ten of whom paid fines and three were discharged.

DEDICATORY EXERCISES.—The Iron City Temple of Honor will dedicate their new hall, located at 161 Federal street, next Thursday night. The programme for the evening is quite interesting, and the affair promises to be highly entertaining. There should be a large attendance.

A RUNAWAY.—Yesterday afternoon a horse attached to a buggy took fright on Ohio avenue, near the outer depot, and, the lines breaking, became unmanageable. The driver was thrown out, but escaped without injury. The horse was captured on Lincoln avenue, about half a mile from the place where he took fright. The buggy was totally demolished.

NARROW ESCAPE FROM DROWNING.—On Saturday night, a boy named Gerge Knecht, aged about twelve years, was almost drowned while bathing in the Allegheny river, near Mechanic street bridge. He had gone beyond his depth, and not being an expert swimmer, began to float down the river. One of his companions observing him, went to his assistance, and after repeated efforts succeeded in rescuing him. When brought to shore life was supposed to be extinct, and efforts were at once made to resuscitate him, and, in the meantime, word was sent home to his mother that her son was drowned. The boy however, after a short time recovered, and was brought to his home on Green street, Third ward. Yesterday he had entirely recovered, and this lesson will no doubt prove a warning not only to the lad, but to the others who witnessed the narrow escape.

BITTEN BY A MAD DOG.—On Saturday afternoon, a boy about twelve years of age, named Frank Schroeder, was bitten by a mad dog in Alderman Ballee's office on Lacock street. The lad resides on Ohio avenue, and had left his home for Pittsburgh, where he wished to meet his father He was leading the dog by a chain, and had no trouble with him until he reached the above office, when the dog took a sudden fit of foaming at the mouth, and rushed into the office. The boy followed, and seizing the animal, was bitten on one of his fingers. The Alderman and his constable, Mr. McKnight, were in the office at the time, and at once perceived that the dog was mad, and fearing that he might bite others, McKnight took out his pistol and shot him. So far as we have learned, the wound is not considered a dangerous one, but it is impossible to say how the bite might result.

INCENDIARISM.

Fire in the Eighth Ward—Loss $1,300.

At four o'clock yesterday morning, flames were seen issuing from a window in the second story of a brick dwelling on Pine street, Eighth ward. An alarm was sounded from Box 56, which was promptly responded to by the firemen. Before their arrival, however, the fire had gained great headway, and it was some time before the flames were subdued. The floors and roof were burned, and there was nothing left but the bare walls. The loss will reach $1,000. The building was owned by Mrs Elizabeth Drane, and had not been occupied for more than a week past. The cigar factory which adjoins this property was in imminent danger, and caught fire a number of times, but through the exertions of the firemen the building was saved. The loss will be about $300, caused mostly by the water.

As the building where the fire originated had not been occupied for some time, and as there had been no fire in it, there is no doubt but that it was the work of an incendiary. Some of the neighbors state that they heard considerable hammering and talking shortly before the breaking out of the fire, but as at the hour there are a large number of workmen on their way to their respective work shops the noise created no suspicion. An investigation into the affair will be made to-day, and probably some clue be had to the scoundrel.

DECORATION DAY.

Further Arrangements for the Laying of the Corner Stone—Proclamation by the Mayor Requesting a Suspension of Business.

The Marshals and Aids appointed for the procession to take place on Decoration Day, held a meeting at the Mayor's office on Saturday night, for the purpose of completing arrangements for that day. Hon. A. P. Callow presided. The following orders were then made:

The staff of the Chief Marshal will form in the Allegheny Diamond, at 9 A. M. The military division under command of Gen. Pearson, will form on Wood street at the same hour, and, prior to joining the main column, will be reviewed by Major General George G. Meade (who has promised to be present) and Chief Marshall Callow.

All German Turner organizations in Allegheny county will please report to General J. B. Weltzel, and all Protestant Associations under command of District Deputy Grand Master, will report to General Charles Barnes, as soon as possible.

The Ladies' Monumental Committee will be under charge of W. B. Heslep, W. J. Hamilton, George Schoonmaker and W. S. Harrah, aids of Chief Marshal, being hereby detailed to take charge of the Association.

The rosetts for the Chief Marshall and his staff are to be three inches in diameter and of red, white blue, with crape and ribon streamers six inches in length.

The Red Men and Druids will all report to G. B. Van Emon, Chief Marshal of First Division, Birmingham, as soon as possible.

A PROCLAMATION.

The Ladies' Monumental Association, desiring to make the demonstration on the occasion of the laying of the corner stone of the Soldiers' Monument as imposing as possible, have requested Mayor Callow to issue a proclamation, requesting a general suspension of business on that day, in order that all persons may participate in the exercises, which request has been complied with. Following is the correspondence in relation to the matter:

PITTSBURGH, May 20, 1870.

Hon. A. P. Callow, Mayor of Allegheny:

DEAR SIR:—The Ladies' Monumental Association design laying the corner stone of the Soldiers' Monument on Monday, May 30. From present appearances the day will be generally observed, but they desire to ask your Honor to request that all places of business be closed, so that employes can take part in the proceedings. Yours, etc.,

A. L. PEARSON,
Chairman Building Committee.

In compliance with the above request of the Ladies' Monumental Association, the citizens of Allegheny are respectfully requested to suspend business on the 30th, to give their employees an opportunity to participate in the memorial ceremonies and laying of the corner-stone of the Soldiers' Monument.

A. P. CALLOW, Mayor.
City of Allegheny, May 21, 1870.

Reckless Driving.

Yesterday afternoon a man named Augustus Schick, while standing in front of his residence at Butcher's Run near the city limits, was knocked down by a buggy which was being driven by William Slater, and received some severe bruises. Slater and another young man named Sanders, were racing, and when they reached Schick's house Slater attempted to pass the other buggy, and in doing so was compelled to drive too near the dwelling of Mr. Schick, thus causing the accident. The young men were arrested and taken before Mayor Callow, who imposed upon each a fine of five dollars and costs, which they paid. The Mayor is determined to stop all the evil practices of those who make a habit of taking pleasure rides every Sabbath on the Perryville and other roads, and to effect this purpose had, on yesterday, twelve officers of the night force detailed on the different roads leading to the country. Many families are prevented from taking rides in the country for fear of being molested on the road. The roads should be well guarded, and every effort made to abate the nusances that have occurred from time to time.

Unlooked for Announcement.

The congregation of the Second Methodist Church of Allegheny City were very much surprised yesterday morning at the close of the sermon and after the announcement of a meeting to elect a delegate to the coming annual Conference. Mr. Rine, the pastor, then in a few words declined being a candidate for the pastorate of the church for the coming year, beginning with September. Considerable emotion seemed manifest, and many with tearful eyes and saddened hearts went to their homes musing for the reason. The church in all its departments is in a flourishing condition; the congregation has steadily increased, and valuable accessions have been made during Mr. Rine's administration the past two years. He leaves with the regret of earnest and loving friends.

Police Intelligence.

[Before Alderman Bolster]

REFUSED TO PAY.

Charles Eatsch appeared before the above magistrate on Saturday, and lodged complaint against William Bauer for assault and battery, and disorderly conduct. The accused, as it appears from the statements of the prosecutor, owed him some money, and when he went to call for it, instead of paying him, struck him a number of times, and also called him vile and obscene names. The parties reside in the Second ward. A warrant has been issued for the arrest of William, when another side of the story may be developed.

RESULT OF INTEMPERANCE.

Max Steiger and George Schwalter occupy different apartments of the same house, located in the Third ward, and, considering the difficulties which the two families have had of late, it would be better if they lived in separate houses, and these, too, at some distance apart. George, it appears, had imbibed too freely of the ardent on Friday evening, and returning home on Saturday morning, entered Mr. Steiger's part of the building, and called him hard names, and acted in a disorderly manner. A warrant was issued for his arrest by Alderman Bolster, on an information made by Steiger for disorderly conduct.

[Before Justice Elsessor, of Etna.]

A TAVERN AFFRAY.

Wm. K. Mulholland, constable of Etna borough, appeared before Justice Elsessor on Saturday, and made information against John Cubbage, John Gulch, Lewis Cubbage, Jacob Weyman and Charles Rome, charging them with acting in a disorderly manner. The defendants were more or less intoxicated, and entering the saloon of Henry Seltz, demanded liquor, which was refused them. They then attacked two men named Wm. Fink and Phillip Shaffer, beating them in a terrible manner. The defendants were arrested and after a hearing fined fifteen dollars and costs of prosecution.

SOUTH SIDE.

Strange Case of Horse Stealing.

Saturday morning, after daylight, a bay mare was stolen from the premises of Mr. Calhoun, seven miles from the city, on the South Side. The strange part of the transaction is that Mr. Cochran saw the man take the horse, and fired two shots at him. On the second shot he received an injury to the eye, from a piece of the exploded cap, which rendered it impossible to pursue the thief. Another statement is that Mr. Calhoun himself was riding the mare, and, upon turning the corner of the barn, the thief fired at him twice. The explosions frightened the animal, which reared and threw Mr. Calhoun off, and his assailant then caught the animal, mounted it and rode rapidly toward the city. The depredator has not been found.

DISTRESSING SUICIDE.

A Glassblower Cuts His Throat With a Razor.

About noon Saturday a man named Frederick Kaufeld committed suicide at his residence in Birmingham by cutting his throat. When found, his throat was cut from ear to ear, and a bloody razor lying beside him told the sad tale. Depressed spirits are supposed to have been the cause of the suicide. Kaufeld was a glassblower by occupation, but being out of employment for some time back, and having a family dependent upon him for support, he naturally became low spirited and determined to end his miseries by taking his own life. He was about as usual Saturday morning, but seemed to be very much down hearted. He was a man of about forty-two years of age, and leaves a wife and family of four or five children to mourn his loss.

A RUNAWAY WIFE.

Elopement in Mansfield—A Wife and Two Children Disappear.

A few days ago, a man named Patrick Keefe—his name indicates his nationality—who had been boarding in the house of Enoch Jones, at Mansfield, Chartiers township, left for parts unknown, taking with him Mrs. Jones and two of her children, aged respectively one and three years. Mr. Jones has with him a daughter aged nineteen, and a boy aged about six years. It appears that Jones and Keefe came to this country together, some four years ago, and were well acquainted. Jones had no suspicions that there was any improper intimacy between his wife and Keefe, and it was not until she had gone that the truth burst upon him. She left for this city, under pretence of making some purchases, and Keefe was seen going to the railway station at the same time. They have not been heard from since.

MWS W. W. WALLACE.

Thrice Armed!

Thrice is he armed who keeps within reach of his hand a specific that at one and the same time will strengthen, regulate and purify his system when enfeebled, disordered and corrupted.

Such is the three-fold operation of Hostetter's Stomach Bitters, and hence the great superiority of that standard vegetable restorative over all medicines that are merely tonics and nothing else. The effect of the ordinary astringent tinctures and extracts upon the bowels is disastrous, and upon the depraved blood or bile they produce no beneficial effects whatever. In dyspepsia and liver complaint all the fluids and humors of the body are more or less infected, and the bowels are often badly constipated. An unmodified astringent—quinine for instance—does infinitely more harm than good in such cases. In Hostetter's Bitters, on the other hand, the stimulating and tonic elements are qualified with aperients and antiseptic ingredients. The finest laxatives and blood depurents in the vegetable kingdom are intermixed with those of a purely invigorating nature, and under the operation of this admirable combination, the three important processes of invigoration, regulation and purification go on together. The rapidity with which the disordered organization returns to its natural condition, under a course of the Bitters is due to this cause. Every disturbed function of the body is favorably affected by the various properties of this comprehensive and well balanced preparation. As a general rule the bowels are more subject to irregularities, and the fluids more liable to become vitiated in spring and summer than in winter, and hence the Bitters are especially valuable as a spring and summer alterative, corrective and invigorant. At all seasons where the seeds of intermittent fevers infect the air, this healthful vegetable elixir should be taken as a protective medicine.

The Opera Hat Store.

None of our readers in passing along Fifth avenue, will fail to observe the elegant hat parlor of Mr. J. D. Ramaley, at No. 62 of the thoroughfare we have indicated. For variety of style, cheapness and good quality, the hats and caps at this establishment are not excelled at any other place. Men and boys who desire to procure fashionable head gear, should not fail to call at Ramaley's hat parlor, No. 62 Fifth avenue.

A Temperance Lecture.

A great many persons preach temperance, and say, "touch not, handle not," but latterly the saying is that the "world moves," and those who preach, and those who listen to their preaching, are prone to take some stimulus, such as wine or brandy, or—well, most of them indulge in *some* beverage which invigorates. The only question with them appears to be where they can get the best. As our purpose is to give all needful information, politically, locally, etc., etc., we feel satisfied we can say nothing more truthful than that the choicest and best foreign and domestic wines, of the finest boquet, the former imported from Germany and France direct, can be found at the wholesale liquor store of John Roth & Son, No. 307 Liberty street, opposite the head of Smithfield street. The firm have complete arrangements by which they purchase wines in this country or Europe of a superior quality, and are enabled to give satisfaction in every particular. Their stock of pure old rye and other whiskies is very large, and dealers will find it to their advantage to call and examine their stock before purchasing elsewhere. In the matter of superior French brandies, rum, gin, etc., the Messrs. Roth & Son have a large stock on hand, and all they ask is a call from those who wish anything in their line, as they feel assured they can give the fullest guarantee, either as regards quality or price. The "Diploma Bitters," manufactured by the Messrs. Roth, are fast gaining a reputation equal to the most famous in the country, and the dyspeptic, debilitated, or any one suffering from disease, should give them a trial. Remember the place, 307 Liberty street.

WELLS'
Every Man His Own Lawyer.

A complete Guide in all Matters of Law and Business Negotiations.

SENT BY MAIL ON RECEIPT OF $2 00.

J. R. WELDIN & CO.,
BOOKSELLERS AND STATIONERS,
161 WOOD STREET.

A Book that Everybody Should Have.

Wells' Every Man His Own Lawyer, and Business Form Book

Is a complete and reliable guide in all matters of law and business transactions for EVERY STATE IN THE UNION.

THE ENTIRE LEADING PRESS OF THE COUNTRY unqualifiedly indorse the work. We make a few short extracts from the press:

"As a legal adviser, always at hand to instruct the reader how to proceed to suits and business transactions of every and all kinds; as a form book to enable the least learned to draw up deeds, mortgages, agreements, leases, orders, wills, etc.; as a guide with regard to the laws of the various States concerning exemptions, liens, limitation of actions, collection of debts, usury and so on, this volume is certainly invaluable to men of business, and it is not surprising that a hundred thousand copies have so soon found their way into the homes and country houses of the multitude. In addition, the work contains a full digest of the action of the Government relative to reconstruction and the freedmen, the General Bankrupt Law, the Patent Laws, Pension Laws, the Homestead Laws, the Internal Revenue Laws, etc. The publisher has determined to make this work complete, and, to our thinking, he has succeeded. No business man or woman can with safety be without it."—New York Times.

"This work is one of the most valuable issues of the press of this country. It contains so much that every man in business should know, but which none have the time to acquire from voluminous works, that it is truly indispensable."—New York Dispatch.

"Such a useful book cannot be too highly commended. A more comprehensive digest could not be desired."—New York Weekly Tribune.

"There should be a copy of it in every family."—New York Weekly.

"The most implicit confidence can be placed upon the work as authority on all the subjects of which it treats."—Philadelphia Age.

"You can purchase in this book what may be worth hundreds of dollars to you."—St. Louis Dispatch.

"It contains just the kind of information every business man stands most in need of."—Sunday Mercury.

The utility of such a work, no one will now question. The sale of hundreds of thousands of copies, and the constant demand for it, have settled that point. The professional man, the farmer, the mechanic, the manufacturer, the soldier, the sailor, each requires a convenient, comprehensive and reliable work which will enable him to draw up any instrument in writing that may be required in a legal form, which will furnish such legal information as is called for in the various avocations of life, a book that everybody can understand, and that will enable every man or woman to be his or her own lawyer.

There is no class of the community, male or female, who have or expect to have any property, or who have any rights or privileges which require protection, who will not be greatly benefitted and advantaged by the possession of this book. It will save them money, save them trouble, save them time, save them litigation and lawyers' fees, and give them information that nobody can afford to be without.

The work is published 12mo. 630 pages. Price, in Cabinet Library Binding, $2 25. Sent postpaid on receipt of price.

Good, reliable Agents wanted everywhere. They will find this one of the best selling works published. Liberal inducements given. For full descriptive Circular and terms, address

A FACT FOR PHYSIOLOGISTS.

It is a singular fact, that in this enlightened age and country, the treatment usually adopted by the Faculty in cases of Dyspepsia (Indigestion), is the result of a false theory, indicating a lamentable ignorance of the physiology of the stomach and digestive organs, and is in most instances calculated to establish and confirm the malady it is intended to remove. The Secretary of the Philadelphia Botanic Institute will feel pleasure in forwarding (free) to all applicants, the excellent botanic remedy for indigestion, bilious and liver complaints, recently discovered by Professor Walker, of Sydney, New South Wales, Australia, and communicated to the Institute by that distinguished botanist. The Medical Reform Society, at whose cost these announcements appear, wish it to be distinctly understood that they will not, in any shape nor under any circumstances whatever, accept any contribution, fee or gratuity, for this recipe, the object of the society being to demonstrate the superiority of the botanic over every other practice of medicine, and in return only desire that those who may be signally benefitted by it will forward to the Society a statement of the case, and thus aid with facts in accelerating the present movement in favor of medical reform. Inclose a directed envelope to the Secretary Botanic Institute, 846 South Fifteenth street, Philadelphia, Pa.
